

became effective at the filing deadline of short-form applications on Monday, July 17, 2000, and will end on the post-auction down payment due date. The post-auction down payment due date will be announced in a future public notice. If parties had agreed in principle on all material terms, those parties must have been identified on the short-form application under § 1.2105(c), even if the agreement had not been reduced to writing. If parties had not agreed in principle by the filing deadline, an applicant should not have included the names of those parties on its application, and must not have continued negotiations with other applicants for licenses in the same geographic area. For further details regarding the prohibition against collusion refer to the *Auction No. 34 Announcing Public Notice*.

8. In addition, applicants are reminded that they are subject to the antitrust laws, which are designed to prevent anti-competitive behavior in the marketplace. Winning bidders will be required to disclose in their long-form applications the specific terms, conditions and parties involved in all bidding consortia, joint ventures, partnerships, and other arrangements entered into relating to the competitive bidding process. Bidders found to have violated the anti-collusion rule may be subject to sanctions.

9. Ex Parte Rule: Applicants should also be aware that the Commission has generally exempted auction proceedings from the strict requirements of the *ex parte* rule found in § 1.2108 of the Commission's rules.

10. Mock Auction: All applicants found to be qualified bidders are eligible to participate in a mock electronic auction on Monday, August 14, 2000. In the *Qualified Bidders Public Notice*, the Bureau will announce when software for the mock auction will be posted on the World Wide Web.

11. Remote Bidding Software: Applicants are reminded that qualified bidders are eligible to bid either electronically or telephonically. To bid electronically, applicants should complete the software order form included in the *Auction No. 34 Announcing Public Notice* or contact the Auctions Hotline at (717) 338-2888. To ensure timely delivery of remote bidding software before the auction begins, the Commission requests receipt of software orders by 5:30 p.m. ET on Tuesday, August 1, 2000. The minimum hardware and software specifications required for the FCC remote bidding system are listed:

- CPU: Intel® Pentium or above.

- RAM: 16 MB (more recommended if you have multiple applications open).

- Hard Disk: 33 MB available disk space.

- 1.44 MB Floppy Drive or CD-ROM Drive (to install the Remote Bidding System).

To download Netscape Communicator 4.73 free of charge, access the Netscape download site at <http://home.netscape.com/download/>.

Note: The FCC Remote Bidding System has not been tested in a Macintosh, OS/2, or Windows NT™ environment. Therefore, the FCC will not support operating systems other than Microsoft Windows 95 or 98. This includes any other emulated Windows environment.

12. Long-Form Applications: All applicants should be aware that at the long-form application stage, they will be subject to the more extensive reporting requirements contained in the Commission's Part 1 ownership disclosure rule. See 47 CFR 1.2112(b).

13. Bidder Alerts: All applicants must certify on their FCC Form 175 applications under penalty of perjury that they are legally, technically, financially and otherwise qualified to hold a license, and not in default on any payment for Commission licenses (including down payments) or delinquent on any non-tax debt owed to any Federal agency. Prospective bidders are reminded that submission of a false certification to the Commission is a serious matter that may result in severe penalties, including monetary forfeitures, license revocations, exclusion from participation in future auctions, and/or criminal prosecution.
