

The purpose of the evaluation is to determine whether the demonstration affects Medicare expenditures, access to care, quality of care, diversity of product selection, and industry competitiveness. The evaluation will also examine any problems associated with implementing competitive bidding for Part B services. Results of the evaluation will be used by HCFA and Congress to determine whether it is feasible to expand competitive bidding.

The research questions to be addressed by the surveys focus on access, quality, and product selection. Our information collection process will include fielding a survey for oxygen users and a survey for other medical equipment and supplies users before the demonstration begins and again after the new demonstration prices have been put into effect. Beneficiaries within the demonstration area will be surveyed; we will also survey beneficiaries within a control site that is similar to the demonstration site in terms of population, managed care penetration, volume of services, and number of beneficiaries. We will also control for socioeconomic factors when analyzing the data. This design will allow us to separate the effects of the demonstration from beneficiary- or site-specific effects.

This evaluation has been expanded to a second site, San Antonio, Texas, as of March 2000. The Balanced Budget Act of 1997 allowed for the demonstration to be conducted in up to three different regions. The demonstration has been ongoing in the first site, Polk County, Florida, since 1999. The baseline Polk County beneficiary surveys were conducted between March and June of 1999. The follow-up Polk County beneficiary surveys will be conducted during the fall of 2000.

We are seeking approval for the new beneficiary surveys (Baseline and Follow-up) for the San Antonio demonstration and comparison site and any subsequent demonstration and comparison sites that include the same DME and POS products. The surveys for the second site, San Antonio, are almost identical to the surveys used in the first site, Polk County, Florida.;

ACTION: Notice.

SUMMARY: On February 24, 2000, HUD published its Fiscal Year 2000 Super Notice of Funding Availability (SuperNOFA) for HUD's Housing, Community Development, and Empowerment Programs and Section 8 Housing Voucher Assistance. The Fiscal Year 2000 SuperNOFA included three funding availability announcements for Section 8 voucher assistance for persons with disabilities. the third program. This document notifies the public that HUD now intends to use a portion of these remaining unobligated funds to provide vouchers to non-elderly persons with disabilities who are seeking to move from nursing homes and other institutional settings to housing in their local communities. Availability of voucher assistance for this purpose will be the subject of a separate **Federal Register** notice.

DATES: The application due dates for funding under the three programs in the Supplementary Information section of this notice have passed, and the application periods are closed. This notice does not reopen the application process for any of the three programs.

Background

On February 24, 2000 (65 FR 9322), HUD published its Fiscal Year 2000 Super Notice of Funding Availability (FY 2000 SuperNOFA) for HUD's Housing, Community Development, and Empowerment Programs and Section 8 Housing Voucher Assistance. The FY 2000 SuperNOFA included announcements of funding availability under the following three programs: Mainstream Housing Opportunities for Persons with Disabilities (Mainstream Housing) (65 FR 9963); Rental Assistance for Non-Elderly Persons with Disabilities Related to Certain Types of Section 8 Project-Based Developments and Section 202, 221(d) and 236 Developments (Certain Developments) (65 FR 9975); and Rental Assistance for Non-Elderly Persons with Disabilities in Support of Designated Housing Plans (Designated Housing) (65 FR-9985).¹

In the funding availability announcements for Certain Developments and Designated Housing, HUD advised that any funds remaining unobligated under these two programs,

¹ A correction of error was also published in the **Federal Register** for the Mainstream Housing Program on June 10, 2000, at 65 FR 37994.

as provided in the funding availability announcements for these two programs, would be used to fund applications from public housing agencies (PHAs) under the Mainstream Housing program (see 65 FR 9977, column three, and 65 FR 9986, column three, respectively).

This Notice

This notice advises that HUD now intends to use a portion of the funds remaining unobligated under Certain Developments and Designated Housing to fund vouchers solely for those non-elderly persons with disabilities who are seeking to move from nursing homes and other institutional settings to housing in their local communities. HUD intends to make available approximately \$2.5 million to fund 400 vouchers for this initiative.

HUD will publish a separate notice in the **Federal Register** to announce this initiative. The **Federal Register** notice to be published will identify the basic policy and design of the initiative, the PHAs selected by HUD to participate in this initiative, and the criteria used to select the PHAs.
