II. Background

EPA is extending until September 15, 2000 the comment period for its draft science policy document entitled, "Proposed Guidance on Cumulative Risk Assessment of Pesticide Chemicals that Have a Common Mechanism of Toxicity." The original comment period would have closed on August 28, 2000. EPA has received requests from a group of stakeholders, who wish to comment on the draft document, asking EPA to extend the comment period. The group requested an additional 30 days for comment, citing the length and complexity of the proposal, as well as the difficulty of preparing comment during the summer vacation period.

III. Do Any Regulatory Assessment Requirements Apply to this Action?

No. This action is not a rulemaking, it merely extends the date by which public comments must be submitted to EPA on a pesticide draft science policy document that previously published in

the **Federal Register** of June 30, 2000 (65 FR 40644) (FRL-6556-4). For information about the applicability of the regulatory assessment requirements to that document, please refer to the discussion in Unit I. of the June 30, 2000, document.
