

(b) To the maximum extent practicable, CCC will use its inventory in making an in-kind payment in the follow priority:

(1) CCC-owned refined sugar held in storage by the processor with whom the producer has a 2000-crop sugar contract which is stored in a region used by CCC in administering the CCC sugar loan program (region) in which the producer and processor are located;

(2) CCC-owned refined sugar held in storage by the processor with whom the

(4) CCC-owned refined sugar held in storage by any other processor which is not in the same region as the producer; and

(5) CCC-owned raw cane sugar held in storage anywhere in the United States.

(c) The value of CCC-owned inventory is dependent upon the storage location

of the sugar and the type of sugar (raw or refined). CCC will value its inventory by using the values set forth in the following tables. Accordingly, the quantity of sugar to be paid by CCC as an in-kind payment to a producer will be determined by dividing: (1) The total of the bid amount submitted by the producer and accepted by CCC, by (2) the value of CCC's inventory at the storage location where title will transfer from CCC to the producer, or the producer's assignee.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled.

The Codex ad hoc Intergovernmental Codex Task Force on Fruit and Vegetable Juices was established by the

Twenty-third Session of the Codex Alimentarius Commission to revise and consolidate the existing Codex Standards and guidelines for fruit and vegetable juices and related products; and revise and up-date the methods of analysis and sampling for these products. The ad hoc Task Force is chaired by Brazil.

Issues To Be Discussed At The Public Meeting

Provisional agenda items to be discussed during the public meeting: Consideration of Proposed Draft Codex Standards at Step 4:

- (a) Proposed Draft Codex General Standard for Fruit Juices and Nectars;
- (b) Proposed Draft Revised Codex Standard for Vegetable Juices; and
- (c) Proposed Draft Codex Guidelines for the Labelling of Mixed Fruit Juices and Nectars.

The agenda items will be described and discussed at the public meeting and attendees will have the opportunity to pose questions and offer comments. Comments may be sent to the FSIS Docket Room (see **ADDRESSES**). Written comments should state that they relate to activities of the First ad hoc Task Force for Fruit and Vegetable Juices.
