## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* Application for License to Export Nuclear Equipment and Material.

3. *The form number if applicable:* NRC Form 7.

4. *How often the collection is required:* On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.

5. *Who will be required or asked to report:* Any person in the U.S. who wishes to export: (a) Nuclear material and equipment subject to the requirements of a specific license; (b) radioactive waste subject to the requirements of a specific license; and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.

6. *An estimate of the number of responses:* 63.

7. *The estimated number of annual respondents:* 63.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 150 hours (2.4 hours per response).

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* Any person in the U.S. wishing to export nuclear material and equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the NRC is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. OMB clearance

requests are available at the NRC worldwide web site (<http://www.nrc.gov/NRC/Public/OMB/index.html>). The document will be available on the bulletin board for 60 days after the signature date of this notice.

## NUCLEAR REGULATORY COMMISSION

### Decommissioning Criteria for the West Valley Demonstration Project (M-32) and the West Valley Site; Revised notice of public meeting

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Revised notice of public meeting.

**SUMMARY:** On December 3, 1999, the U.S. Nuclear Regulatory Commission (NRC) published in the *Federal Register* a draft Policy Statement on the criteria to be used for decommissioning the West Valley Demonstration Project and West Valley Site and an announcement of a public meeting on the Policy Statement. The time scheduled for that public meeting has been lengthened from two to three hours. Therefore, NRC will conduct a public meeting at the Ashford Office Complex, 9030 Route 219, West Valley, New York, conference room C1, on January 5, 2000, from 7:00-10:00 p.m. to discuss the draft policy statement for the decommissioning criteria for West Valley with interested members of the public.

The NRC requested that comments on the draft Policy Statement be submitted by February 1, 2000. The purpose of the meeting, which will be transcribed, is to provide information to the public on the

policy statement and the NRC's regulatory responsibilities and to engage in a discussion with the public on questions and concerns related to NRC responsibilities. The discussion will also facilitate the preparation of any written comments on the policy statement and give the public an opportunity to provide oral comments. In the discussions, NRC staff will be interested in hearing views on issues such as: Institutional Controls/Engineered Barriers; Incidental Waste; Partial Site Release; Fulfillment of NRC's National Environmental Policy Act responsibility, and any other issues related to the NRC's role at West Valley that the public may be interested in. Although the focus of the meeting will be on a discussion with the public on West Valley issues, some time will be reserved for those wishing to read a brief formal statement.
