BILLING CODE 4410-18-M

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension of the collection of the ETA 9048, Worker Profiling and Re-employment Services Activity, and the ETA 9049, Worker Profiling and Re-employment Services Outcomes. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before November 6, 2000.

Addressee

Diane Wood, Unemployment Insurance Service, 200 Constitution Ave. NW, Room S-4321, Washington, DC 20210; telephone 202-219-5340 x181; fax 202-219-8506 (these are not toll-free numbers).

SUPPLEMENTARY INFORMATION:

I. Background

The Worker Profiling and Re-employment Services (WPRS) program allows for the targeting of re-employment services to those most in need. The ETA 9048 and ETA 9049 are the only means of tracking the activities in the WPRS program. The ETA 9048 reports on the flows of claimants through the various stages of the WPRS system from initial profiling through to completion of various types of services allowing for evaluation and monitoring of the program. The ETA 9049 gives a limited, but inexpensive, look at the re-employment experience of profiled claimants who were referred to services by examining the State's existing wage record files to see in what quarter the

referred individuals show up in employment, what wages they are earning and if they have changed industries.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
