

Management Site-Specific Advisory Board (EM SSAB) Paducah, Kentucky. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Thursday, September 21, 2000 5:30 p.m.–9:00 p.m.

ADDRESSES: Paducah Information Age Park Resource Center, 2000 McCracken Boulevard, Paducah, Kentucky 42001.

FOR FURTHER INFORMATION CONTACT: John D. Sheppard, Deputy Designated Federal Officer, Department of Energy, Paducah Site Office, Post Office Box 1410, MS-103, Paducah, Kentucky 42001, (270) 441-6804; fax (270) 441-6801 or e-mail: sheppardjd@ornl.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE and its regulators in the areas of environmental restoration, waste management, and related activities. Copies of the final agenda will be available at the meeting.

Tentative Agenda:

5:30 p.m. Informal Discussion
6:00 p.m. Call to Order
6:10 p.m. Approve Minutes
6:20 p.m. Presentations with Board Response and Public Comment
8:00 p.m. Subcommittee Reports with Board Response and Public Comment
8:30 p.m. Administrative Issues
9:00 p.m. Adjourn

Public Participation: The meeting is open to the public.

Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact John D. Sheppard at the address or telephone number listed above. Requests must be received 5 days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of 5 minutes to present their comments consistent with the agenda.

Minutes: The minutes of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 a.m. and 4 p.m., Monday–Friday, except Federal holidays. Minutes will also be available at the Department of Energy's Environmental Information Center and Reading Room at 175 Freedom Boulevard, Highway 60, Kevil,

Kentucky between 8:00 a.m. and 5:00 p.m. on Monday thru Friday or by writing to John D. Sheppard, Department of Energy Paducah Site Office, Post Office Box 1410, MS-103, Paducah, Kentucky 42001 or by calling him at (270) 441-6804.

Issued at Washington, DC on August 30, 2000.

Rachel M. Samuel,

Deputy Advisory Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[FE Docket No. PP-230]

Application to Rescind Presidential Permit; Joint Application for Presidential Permit; Detroit Edison Company and International Transmission Company

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of joint application.

SUMMARY: Detroit Edison and International Transmission jointly applied to rescind Presidential Permit PP-221 held by Detroit Edison and to issue a Presidential permit to International Transmission covering these same international transmission facilities. In addition, the Applicants are requesting expedited approval of their joint application.

DATES: Comments, protests, or requests to intervene must be submitted on or before September 21, 2000.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import and Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC, 20585-0350.

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael T. Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038. Existing Presidential permits are not transferable or assignable. However, in the event of a proposed voluntary transfer of facilities, in accordance with the regulations at 10 CFR 205.323, the existing permit holder and the

transferee are required to file a joint application with DOE that includes a statement of reasons for the transfer.

On August 21, 2000, The Detroit Edison Company (Detroit Edison) and International Transmission Company (International Transmission) (collectively the "Applicants") jointly filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for a transfer from Detroit Edison to International Transmission of the facilities authorized by Presidential Permit PP-221. These facilities include:

(a) One 230,000-volt (230-kV) transmission line connecting Detroit Edison's Bunce Creek Station, located in Marysville, Michigan, with Ontario Hydro's Scott Transformer Station located in Sarnia, Ontario (previously identified by Detroit Edison as the B3N facility).

(b) One 230-kV transmission line connecting Detroit Edison's Waterman Station, located in Detroit, Michigan, with Ontario Hydro's J. Clark Keith Generating Station, located in Windsor, Ontario (previously identified by Detroit Edison as the J5D facility).

(c) One 345-kV transmission line connecting Detroit Edison's St. Clair Generating Station, located in East China Township, Michigan, with Ontario Hydro's Lambton Generating Station, located in Moore Township, Ontario (previously identified by Detroit Edison as the L4D facility).

(d) One 230-kV transmission line connecting Detroit Edison's St. Clair Generating Station, located in East China Township, Michigan, with Ontario Hydro's Lambton Generating Station, located in Moore Township, Ontario (previously identified by Detroit Edison as the L51D facility).

The proposed transfer of these facilities is occasioned by a planned corporate restructuring by DTE Energy Company (DTE Energy); the Applicants are each wholly owned subsidiaries of DTE Energy. On June 29, 2000, in an Order issued by the Federal Energy Regulatory Commission (FERC) in Docket No. EC00-86-000, DTE Energy and the Applicants were authorized to engage in a series of intra-corporate transactions. One result of these transactions is the transfer from Detroit Edison to International Transmission of ownership, operation, and control of its integrated high-voltage transmission facilities, including international transmission lines previously authorized to Detroit Edison by DOE in Presidential Permit PP-221. The PP-221 facilities connect the Detroit Edison system with the system of Hydro One Networks, Inc. (Hydro One, formerly Ontario Hydro).

On December 8, 1998, Detroit Edison applied to DOE to amend certain existing Presidential permits by changing the manner in which the international facilities are operated. In that related proceeding (FE Docket PP-221) Detroit Edison proposed installing a voltage-regulating autotransformer on the L51D facility and a phase-shifting transformer on the B3N facility. On April 27, 2000, in Order PP-221, DOE authorized Detroit Edison to place in service the autotransformer on the L51D facility, but put off authorizing the requested change to the B3N facility until after submission and evaluation by DOE of additional regional coordination studies. These studies have not yet been submitted to DOE for review. Therefore, if DOE authorizes the transfer of Detroit Edison's international facilities to International Transmission, any subsequent changes to the B3N facilities that DOE may authorize would occur in Docket PP-230. DOE will consider interveners or parties in the PP-221 proceeding to be interveners or parties in the continuation of this proceeding.

Since restructuring of the electric power industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the FPA and articulated in Federal Energy Regulatory Commission Order No. 888 (Promotion Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public utilities; FERC Stats. & Regs. ¶13,036 (1996)), as amended. In furtherance of this policy, on July 27, 1999, (64 FR 40586) DOE initiated a proceeding in which it noticed its intention to condition existing and future Presidential permits, appropriate for third party transmission, on compliance with a requirement to provide non-discriminatory open access transmission service. That proceeding is not yet complete. However, in this docket DOE specifically requests comment on the appropriateness of

applying the open access requirement on facilities proposed to be transferred to International Transmission.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Raymond O. Sturdy, Jr., The Detroit Edison Company, 2000 Second Avenue—688 WCB, Detroit, Michigan 48226-1279 and Messrs. John D. McGrane and Michael C. Griffen, Morgan, Lewis & Bochi LLP, 1800 M Street, NW, Washington, DC 20036.

Before a Presidential permit or electricity export authorization may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed actions pursuant to the National Environmental Policy Act of 1969. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of these applications will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be reviewed or downloaded from the Fossil Energy Home Page at: <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Electricity" from the options menu, and then "Pending Proceedings."

Issued in Washington, D.C., on August 31, 2000.

Ellen Russell,

Acting Deputy Director, Electric Power Regulation, Office of Coal & Power Im/Ex, Office of Fossil Energy.

BILLING CODE 6450-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP00-374-000]

Columbia Gas Transmission Corporation; Notice of Technical Conference

August 30, 2000.

In the Commission's order issued on August 23, 2000,¹ the Commission directed that a technical conference be held to address issues raised by the filing.

Take notice that the technical conference will be held on Thursday, September 14, 2000, at 10 am, in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

All interested parties and Staff are permitted to attend.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 00-22711 Filed 9-5-00; 8:45 am]

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP00-493-000]

Midcoast Interstate Transmission, Inc.; Notice of Tariff Filing

August 30, 2000.

Take notice that on August 16, 2000, Midcoast Interstate Transmission, Inc. filed revised tariff sheets to eliminate tariff provisions that are inconsistent with the Commission's decision in Order Nos. 637 and 637-A to remove the rate ceiling for short term capacity release transactions. As mandated by such orders, the revised tariff sheets are to be effective as of March 26, 2000.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protest must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.
