

mg/kg bwt/day in males and 2.68 mg/kg bwt/day in females) based upon liver effects (increased serum activities of ALT and APH, cellular hypertrophy and periportal fatty change) at 800 ppm (24.69 mg/kg bwt/day in males and 28.10 mg/kg bwt/day in females). A follow-up study was conducted in Beagle dogs that received 0, 10, 20, 40, or 80 ppm iprovalicarb in their diet for 28 days. The NOAEL for microsomal liver enzyme induction was determined to be 20 ppm (0.77 mg/kg bwt/day). Microsomal liver enzyme induction was observed at the higher doses, and reversal of induction was observed within a 4-week recovery period in the 80 ppm dose group (2.93 mg/kg bwt/day).

6. *Animal metabolism.* Iprovalicarb is readily absorbed, and greater than 97.8% of the total radioactivity was eliminated in urine and feces within 48 hours of dosing. Iprovalicarb is extensively metabolized in the rat. The primary metabolites (>58% of the administered dose) were diastereomers of iprovalicarb-carboxylic acid. Eight minor metabolites, each representing less than 2% of the administered dose, were quantified.

7. *Metabolite toxicology.* The toxicity of p-methyl-phenethylamine, a rat, plant and soil metabolite, was investigated in 2 studies:

i. The acute oral LD₅₀ in Wistar rats was determined to be in the range of 300 to 500 mg/kg bw.

ii. No mutagenic activity was observed in the *Salmonella/microsome* test. p-Methyl-phenethylamine was found at concentrations of <0.2% and has been determined to not be toxicologically significant.

8. *Endocrine disruption.* No endocrine disruption potential was observed in the 2-generation reproduction study, developmental toxicity studies, subchronic feeding studies, and chronic feeding studies.

C. Aggregate Exposure

1. *Dietary exposure.* There are no registered uses of iprovalicarb in the U.S., and no registrations or other tolerances are pending. Dietary exposure to iprovalicarb in the U.S. is limited to residues in/on imported grapes, grape juice, wine, and raisins.

i. *Food.* The anticipated residue in/on fresh grapes based upon the field studies is 0.50 ppm, and 35.71% of the fresh grapes consumed in the U.S. are imported. The anticipated residue in grape juice based upon the field and processing studies is 0.050 ppm, and 37.05% of the grape juice consumed in the U.S. is imported. The anticipated residue in wine based upon the field

and processing studies is 0.32 ppm, and 17.38% of the wine consumed in the U.S. is imported. The anticipated residue in raisins based upon the field and processing studies is 0.91 ppm, and 8.165% of the raisins consumed in the U.S. are imported. Assuming 100% of the imported commodities are treated and have the average residue resulting from the maximum international use of iprovalicarb, the total anticipated residue is 0.000021 mg/kg bwt/day in the U.S. diet and 0.000056 mg/kg bwt/day for the most exposed sub-population, children 1 to 6 years old.

ii. *Drinking water.* Iprovalicarb is not registered for use in the United States. Therefore, there is no exposure to iprovalicarb through drinking water in the United States.

2. *Non-dietary exposure.* Iprovalicarb is not used in the United States. Therefore, there is no non-dietary exposure to iprovalicarb in the United States.

D. Cumulative Effects

Iprovalicarb is a member of a new class of chemistry and does not have a mode of action that is common with other registered pesticides. Therefore, there are no cumulative effects.

E. Safety Determination

1. *U.S. population.* The reference dose (RfD) is 0.03 mg/kg bwt/day. Based upon anticipated residues in imported commodities and assuming 100% of the imported commodities contain residue resulting from the proposed European use of iprovalicarb, the estimated chronic dietary margin of exposure of the U.S. population is 0.07% of the RfD. Therefore, there is a reasonable certainty of no harm to the U.S. population resulting from exposure to iprovalicarb residues in/on imported commodities.

2. *Infants and children.* The population subgroup with the maximum estimated dietary exposure is children age 1 to 6 years old. For this subgroup, and using the same assumptions as listed for the U.S. population, the estimated chronic dietary margin of exposure is 0.18% of the RfD. Therefore, there is a reasonable certainty of no harm to infants and children in the U.S. resulting from exposure to iprovalicarb residues in/on imported commodities.

F. International Tolerances

The following maximum residue levels are pending in the European Union: 2.0 mg/kg in/on grapes; 0.5 mg/kg in animal fat; 0.05 mg/kg in potatoes, animal meat, animal edible offal and eggs; and 0.01 mg/kg in milk.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-51952; FRL-6746-8]

Certain New Chemicals; Receipt and Status Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a premanufacture notice (PMN) or an application for a test marketing exemption (TME), and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which covers the period from August 14, 2000 to August 25, 2000, consists of the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the

SUPPLEMENTARY INFORMATION. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPPTS-51952 and the specific PMN number in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: Barbara Cunningham, Director, Office of Program Management and Evaluation, Office of Pollution Prevention and Toxics (7401), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 554-1404; e-mail address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the premanufacture notices addressed

in the action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain copies of this document and certain other available documents from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

2. *In person.* The Agency has established an official record for this action under docket control number OPPTS-51952. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as confidential business information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the TSCA Nonconfidential Information Center, North East Mall Rm. B-607, Waterside Mall, 401 M St., SW., Washington, DC. The Center is open from noon to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number of the Center is (202) 260-7099.

C. How and to Whom Do I Submit Comments?

You may submit comments through the mail, in person, or electronically. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPPTS-51952 and the specific PMN number in the subject line on the first page of your response.

1. *By mail.* Submit your comments to: Document Control Office (7407), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

2. *In person or by courier.* Deliver your comments to: OPPT Document Control Office (DCO) in East Tower Rm. G-099, Waterside Mall, 401 M St., SW., Washington, DC. The DCO is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the DCO is (202) 260-7093.

3. *Electronically.* You may submit your comments electronically by e-mail to: "oppt.ncic@epa.gov," or mail your computer disk to the address identified in this unit. Do not submit any information electronically that you consider to be CBI. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on standard disks in WordPerfect 6.1/8.0 or ASCII file format. All comments in electronic form must be identified by docket control number OPPTS-51952 and the specific PMN number. Electronic comments may also be filed online at many Federal Depository Libraries.

D. How Should I Handle CBI that I Want to Submit to the Agency?

Do not submit any information electronically that you consider to be CBI. You may claim information that you submit to EPA in response to this document as CBI by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public version of the official record. Information not marked confidential will be included in the public version of the official record without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Provide specific examples to illustrate your concerns.

6. Offer alternative ways to improve the notice or collection activity.

7. Make sure to submit your comments by the deadline in this document.

8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. Why is EPA Taking this Action?

Section 5 of TSCA requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a PMN or an application for a TME and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which covers the period from August 14, 2000 to August 25, 2000, consists of the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

III. Receipt and Status Report for PMNs and TMEs

This status report identifies the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period. If you are interested in information that is not included in the following tables, you may contact EPA as described in Unit II. to access additional non-CBI information that may be available.

In table I, EPA provides the following information (to the extent that such information is not claimed as CBI) on the PMNs received by EPA during this period: the EPA case number assigned to the PMN; the date the PMN was received by EPA; the projected end date for EPA's review of the PMN; the submitting manufacturer; the potential uses identified by the manufacturer in the PMN; and the chemical identity.

I. 35 PREMANUFACTURE NOTICES RECEIVED FROM: 08/14/00 TO 08/25/00

Case No.	Received Date	Projected Notice End Date	Manufacturer/Importer	Use	Chemical
P-00-1114	08/15/00	11/13/00	Cognis Corporation	(G) Synthetic lubricant	(S) 1,3-propanediol, 2,2-dimethyl-, di-C ₅₋₉ carboxylates*
P-00-1115	08/14/00	11/12/00	CBI	(G) Open, non-dispersive use.	(G) Acrylic dispersant polymer
P-00-1116	08/15/00	11/13/00	Ashland Inc.	(G) Closed compression molding operations.	(G) Unsaturated polyester

BILLING CODE 6560-50-S

**ENVIRONMENTAL PROTECTION
AGENCY**

[OPPTS-51951; FRL-6743-1]

**Certain New Chemicals; Receipt and
Status Information**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic
Substances Control Act (TSCA) requires
any person who intends to manufacture
(defined by statute to include import) a
new chemical (i.e., a chemical not on
the TSCA Inventory) to notify EPA and
comply with the statutory provisions
pertaining to the manufacture of new
chemicals. Under sections 5(d)(2) and

5(d)(3) of TSCA, EPA is required to
publish a notice of receipt of a
premanufacture notice (PMN) or an
application for a test marketing
exemption (TME), and to publish
periodic status reports on the chemicals
under review and the receipt of notices
of commencement to manufacture those
chemicals. This status report, which
covers the period from July 24, 2000 to
August 11, 2000, consists of the PMNs,
both pending or expired, and the notices
of commencement to manufacture a new
chemical that the Agency has received
under TSCA section 5 during this time
period.

ADDRESSES: Comments may be
submitted by mail, electronically, or in
person. Please follow the detailed
instructions for each method as
provided in Unit I. of the
SUPPLEMENTARY INFORMATION. To ensure
proper receipt by EPA, it is imperative
that you identify docket control number
OPPTS-51951 and the specific PMN
number in the subject line on the first
page of your response.

SUPPLEMENTARY INFORMATION:**I. General Information***A. Does this Action Apply to Me?*

This action is directed to the public
in general. As such, the Agency has not
attempted to describe the specific
entities that this action may apply to.
Although others may be affected, this
action applies directly to the submitter
of the premanufacture notices addressed
in the action. If you have any questions
regarding the applicability of this action
to a particular entity, consult the person
listed under **FOR FURTHER INFORMATION
CONTACT.**

*B. How Can I Get Additional
Information, Including Copies of this
Document and Other Related
Documents?*

1. *Electronically.* You may obtain
copies of this document and certain
other available documents from the EPA
Internet Home Page at [http://
www.epa.gov/](http://www.epa.gov/). On the Home Page select
“Laws and Regulations,” “Regulations
and Proposed Rules,” and then look up
the entry for this document under the
“**Federal Register**—Environmental
Documents.” You can also go directly to
the **Federal Register** listings at [http://
www.epa.gov/fedrgstr/](http://www.epa.gov/fedrgstr/).
