Animal and Plant Health Inspection Service

Title: National Agricultural Pest Information System.

OMB Control Number: 0579-0010.

Summary of Collection: The United States Department of Agriculture is responsible for preventing plant diseases or insect pests from entering the United States, preventing the spread of pests not widely distributed in the United States, and eradicating those imported pests when eradication is feasible. The Plant Quarantine Act and the Federal Plant Pest Act authorizes the Department to carry out this mission. The Animal and Plant Health Inspection Service (APHIS) has joined forces with the States to create a program called the Cooperative Agricultural Pest Survey. The program allows the States and the Plant Protection and Quarantine (PPQ) Division to conduct surveys to detect and measure the presence of imported plant pests and to input survey data into a national computer-based system (called the National Agricultural Plant Information System). APHIS will collect information using PPQ Form 391 and a survey.

Need and Use of the Information: APHIS will collect information to predict potential pest situations, to promptly detect and respond to the occurrence of new pests, and to record the location of those pest incursions that could directly hinder the export of U.S. farm commodities. If the information were not collected, it would seriously affect APHIS ability to timely assist farmers, State personnel, and others involved in agriculture to plan pest control measures, detect new outbreaks, and to determine the threat posed by migratory pests.

Description of Respondents: Government.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Economic Research Service

Title: Study of Program Access and Declining Food Stamp Participation.

OMB Control Number: 0536-NEW.

Summary of Collection: The Economic Research Service (ERS) of the Department of Agriculture (USDA) has the responsibility to provide social and economic intelligence on consumer, food marketing, and rural issues, including: Domestic food assistance programs; low-income assistance programs; food security status of the poor; food consumption determinants and trends; consumer demand for food quality, safety, and nutrition; food market competition and coordination; and food safety regulations. The Food Stamp Program (FSP) is the cornerstone of the Nation's nutrition safety net for low-income Americans. The program's intent is to eliminate hunger and enable eligible low-income persons to obtain a more nutritionally adequate diet by providing food stamp coupons (or other forms of payment) redeemable at many retail food stores. USDA is concerned about the declines in Food Stamp Program participation that have occurred since 1994, and whether or not the program is reaching all those in need. In an effort to better understand the factors affecting Food Stamp Program participants, the ERS will launch a study. The evaluation is being performed pursuant to Public Law 95-73, which authorizes USDA to undertake research.

Need and Use of the Information: ERS will collect information to describe the policies and practices in local food stamp offices, particularly those instituted since welfare reform, that may affect accessibility to the FSP; to examine how local policies and practices affect households' decisions to apply for food stamps and their decisions to continue to receive food stamps; and to examine the reason eligible households do not participate in the FSP.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 37,278.

Frequency of Responses: Reporting: Other (one time).

Total Burden Hours: 5,110.5.

Farm Service Agency

Title: Certified Mediation Program.

OMB Control Number: 0560-0165.

Summary of Collection: The Farm Service Agency (FSA) is amending its Agricultural Loan Mediation (AMP) regulations to implement the requirements of the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (the 1994 Act). P.L. 103-354, October 13, 1994, amended Section 501 of the Agricultural Credit Act of 1987 (7 U.S.C. 5101 by striking "an agricultural loan

mediation program" and inserting "a mediation program". The regulation provides a mechanism to States to apply for and obtain matching funds grants from USDA. The grant funds help states supplement administrative operating funds needed to administer their agricultural mediation programs. FSA will collect information by mail, phone, fax, and in person.

Need and Use of the Information: FSA will collect information to ensure matching grant funds are used only to pay for eligible costs necessary for the operation and administration of the State mediation programs, consistent with the statutory purposes of the program. If information were not collected, this would result in improper administration and appropriation of Federal grant funds.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 25.

Frequency of Responses: Recordkeeping; Reporting: Annually.

Total Burden Hours: 775.

Natural Resources Conservation Service

Santa Cruz Watershed, Rio Arriba County, New Mexico

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Natural Resources Conservation Service Rules (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the rehabilitation of Floodwater Retarding Structure 3A in the Santa Cruz River Watershed.

FOR FURTHER INFORMATION CONTACT:

Rosendo Trevino III; State Conservationist; Natural Resources Conservation Service; 6200 Jefferson, NE; Albuquerque, NM 87109-3734; telephone 505-761-4400.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national effects on the human environment. As a result of these findings, Rosendo Trevino III, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project. The project purpose is flood prevention. The action includes the rehabilitation of one floodwater retarding dam. The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency; various Federal, state, and local agencies; and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment is on file and may be reviewed by contacting Rosendo Trevino III.

No administrative action on implementation of the proposed action will be taken until 30 days after the date

of this publication in the **Federal Register**.

Rosendo Trevino III,

State Conservationist.
