

revised application guidance and instructions. These changes affect several areas of the application and add a new section to accommodate reporting of uniform data on the public mental health system. Proposed revisions to the previously approved application include: (1) A table for listing mental health planning council membership in order to determine whether the membership and threshold requirements of the law (42 U.S.C. 300x-4) are being met; (2) several minor changes in the format, including moving the report required under 42 U.S.C. 300x-52 to the Implementation Report; and, (3) addition of a new Section IV requiring States to report uniform data

on their public mental health systems with a focus on community mental health services, along with a State-level reporting system capacities checklist in order to ascertain States' ability to report uniform data. Section IV has been developed through a collaborative partnership and consultation with a data working group consisting of representatives from the National Association of State Mental Health Program Directors, State level data experts and consumer representatives.

In the previous application approved by the Office of Management and Budget, it was estimated that the average annual hourly burden for each State would be 195 hours, taking into

consideration the option provided to States for electronic submission of the application. This included 115 hours to complete the Plan (Sections I-III) and 80 hours to complete the Implementation Report. Based on anecdotal information, it is anticipated that for the Plan the burden will remain at 115 hours and for the Implementation Report the burden will remain at 80 hours. The burden for Section IV, which requires States to complete several data tables along with a State level reporting system capacities checklist, is estimated to be 20 hours. The following table summarizes the annual burden for the revised application.

Part of application	Number of respondents	Responses per respondent	Burden per response (Hrs.)	Total burden
Plan (Sections I-III)	59	1	115	6,785
Data tables & Checklist (Section IV)	59	1	20	1,180
Implementation Report (Section V)	59	1	80	4,720
Total	59	215	12,685
