DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Science Board**

ACTION: Notice of Advisory Committee Meetings.

SUMMARY: The Defense Science Board (DSB) Task Force on High Energy Laser Weapon Systems Applications will meet in closed session on October 19-20, 2000, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA 22201.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Task Force will review on-going or proposed programs in high energy laser (HEL) applications; examine recent supporting technology advancements and their applications with respect to supporting military HEL weapon system developments; develop potential military and strategic HEL system applications and identify processes required to implement these potentials; determine what needs to be done to "weaponize" these systems; and assess HEL operational concepts, impacts and limitations, considering legal, treaty and policy issues concerning HEL employment.

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92-463, as amended (5 U.S.C. App. II, (1994)), it has been determined that these Defense Science Board meetings, concern matters listed in 5 U.S.C. § 552b(c)(1) (1994), and that accordingly these meetings will be closed to the public.

Dated: September 25, 2000.

BILLING CODE 5001-10-M

DEPARTMENT OF DEFENSE**Department of the Army****Final Environmental Assessment (EA) for BRAC 95 Disposal and Reuse of Fort Hunter Liggett, California**

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: Fort Hunter Liggett will be realigned in accordance with the recommendations of the Base Closure and Realignment Commission, mandated by Defense Base Closure and Realignment Act of 1990, Public Law 101-510, as amended (the "BRAC law").

Under the BRAC law, the Secretary of the Army has the authority to dispose of excess real property and facilities located at a military installation recommended for closure or realignment. The Army prepared an EA pursuant to the National Environmental Policy Act of 1969 to assess the environmental effects of disposal and reuse of the entire installation and reasonable alternatives.

The EA analyzed two alternative courses of action with respect to the

surplus property at Fort Hunter Liggett: The no action alternative, under which the property would be placed in indefinite caretaker status, and the encumbered disposal alternative, under which the Army would transfer the property with encumbrances. Additionally, this EA analyzed the potential environmental and socioeconomic consequences of proposed reutilization of excess lands and facilities at Fort Hunter Liggett. The proposed reuses are similar to those for which the property is currently utilized.

The EA concluded that the no action alternative is not reasonable since BRAC law mandates the realignment of Fort Hunter Liggett and retention of only minimum essential facilities and land to support Reserve Component training. The EA also concluded that the encumbered disposal alternative is the only feasible alternative.

The Army's preferred alternative course of action is the encumbered disposal of excess property at Fort Hunter Liggett. Potential encumbrances that could be expected to apply at the time of property transfer include: Continued Army utility easements and rights-of-way, Army access to conduct remedial activities, and notifications concerning properties that possess asbestos-containing materials and lead-based paints.

DATES: Comments must be submitted on or before November 1, 2000.

ADDRESSES: A copy of the Final EA may be obtained by writing to Dr. Neil Robison, U.S. Army Corps of Engineers, U.S. Army Engineer District, Mobile (CESAM-PD), 109 St. Joseph Street, Mobile, AL 36602.

FOR FURTHER INFORMATION CONTACT: Dr. Neil Robison, U.S. Army Corps of Engineers, Mobile District, phone (334) 690-3018 and telefax (334) 690-2605.

SUPPLEMENTARY INFORMATION: The Army analyzed the reuse of Fort Hunter Liggett property in the EA by two federal agencies, the Department of the Navy and the National Park Service.

The Notice of Intent to prepare an EA for the Fort Hunter Liggett BRAC realignment was published in the **Federal Register** on January 28, 1999 (64 FR 4399). Based upon the analysis of the environmental effects of the proposed realignment of Fort Hunter Liggett found in the EA, it has been determined that the implementation of this realignment action would have no significant impacts on the quality of the natural or human environment. Because no significant environmental impacts would result from implementation of the proposed action, an Environmental Impact Statement is not required.
