Number of Entities Reporting	16	56	56	56
Total Number of Hours Required for Reporting Burden Per Year	192	672	672	672

Note: Number of reports required per entity per quarter/per year is impacted by the 3 year life of each year of appropriated funds, *i.e.*, PY 1997 and 1998 funds are available for expenditure in PY 1999, thus 3 reports reflect 3 available funding years. DOL estimates 16 entities reporting for PY 1999. Beginning in PY 2000, all entities (56) are required to report under WIA.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintaining): \$0.

Description: The proposed Information Collection Request (ICR) incorporates the necessary reporting instructions for States to report financial data related to Workforce Investment Act programs to DOL. These instructions have been prepared in response to the requirement set forth at 20 CFR 667.300, for DOL to issue financial reporting instructions to States; and to ensure State compliance with the reporting elements contained in the Workforce Investment Act (WIA) of 1998, Subtitle E. Sec. 185.

The WIA requires quarterly financial reports which shall include information identifying all program and activity costs by cost category in accordance with generally accepted accounting principles and by year of appropriation. The WIA also requires reporting any income or profits earned, such including such income or profits earned by subrecipients and any costs incurred (such as stand-in costs) that are otherwise allowable except for funding limitations. In addition, WIA requires the reporting of costs only as administrative or programmatic, with computerization/technology costs not included in the administrative cost limit calculation.

The Standard Form 269 has been modified to provide the six reporting formats which will be used for WIA reporting. Separate reporting formats will be needed for: (1) Local area youth, (2) local area adults, (3) local area dislocated workers, (4) local administration, (5) Statewide activities (15% total Federal allotment), and (6) Statewide rapid response.

ETA is designing software that will contain the data elements required for each of the reporting formats. Instructions corresponding to the required data elements also will be provided to the States in the software

package. Transmittal of this data will occur on a quarterly basis via the Internet.

The data collection and reporting requirements requested by the Employment and Training Administration are necessary to effectively manage and evaluate the financial status of the WIA program, to measure regulatory compliance, to prepare required reports to Congress, and for audit purposes.
