Civil Monetary Penalties; Adjustment for Inflation

AGENCY: Office of the Secretary, Commerce.

ACTION: Final rule.

SUMMARY: This final rule is being issued to adjust each civil monetary penalty provided by law within the jurisdiction of the Department of Commerce (the Department). The Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, requires the head of each agency to adjust its civil monetary penalties for inflation no later than October 23, 1996, and at least once every four years thereafter. These inflation adjustments will apply only to violations that occur after the effective date of this rule.

DATES: This rule is effective November 1, 2000.

ADDRESSES: Office of Financial Management, Department of Commerce, 14th and Constitution Avenue, MS 6827, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Lisa Casias, 202-482-0766.

SUPPLEMENTARY INFORMATION: The Federal Civil Penalties Inflation Adjustment Act of 1990, (Pub. L. 101-410), provided for the regular evaluation of civil monetary penalties to ensure that they continued to maintain their deterrent value and that penalty amounts due to the Federal Government were properly accounted for and collected. On April 26, 1996, the Federal Civil Penalties Inflation Adjustment Act of 1990 was amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104-134) to require each agency to issue regulations to adjust its civil monetary penalties (CMP) for inflation at least every four years. The amendment further provides that any resulting increases in a CMP due to the inflation adjustment should apply only to the violations that occur subsequent to the date of the publication in the **Federal Register** of the increased amount of the CMP. The first inflation adjustment of any penalty

shall not exceed ten percent of such penalty.

On October 24, 1996, the Commerce Department published in the **Federal Register** a schedule of CMP adjusted for inflation as required by law. In one instance, the initial CMP inflation adjustment was zero, and was published accordingly. In two cases the adjustment was nine percent. All other CMP adjusted at that time were increased by the ten percent maximum amount. In the October 24, 1996, publication, the following then existing CMP were not included:

- 15 U.S.C. 5408 (b)(1), Fastener Quality Act
- 16 U.S.C. 1174 (b), Fur Seal Act Amendments of 1983
- 16 U.S.C. 1385 (e), Dolphin Protection Consumer Information Act
- 16 U.S.C. 2465 (a), Antarctic Protection Act of 1990
- 16 U.S.C. 4016 (b)(1)(B), Fish and Seafood Promotion Act of 1986
- 16 U.S.C. 5010 (a), North Pacific Anadromous Stocks Act of 1992
- 16 U.S.C. 5103 (b)(2), Atlantic Coastal Fisheries Cooperative Management Act
- 16 U.S.C. 5507 (a), High Seas Fishing Compliance Act of 1995
- 16 U.S.C. 5606 (b), Northwest Atlantic Fisheries Convention Act of 1995
- 22 U.S.C. 1978 (e), Fishermen's Protective Act of 1967

By this publication CMP are again being adjusted for inflation as prescribed by law. In the case of those CMP listed above that were not previously adjusted, the CMP adjustment in this document is subject to the initial inflation adjustment limitation of ten percent, and each is being adjusted by that amount. Next, in the October 24, 1996, publication, the CMP included in the Atlantic Striped Bass Conservation Act (16 U.S.C. 1851 Note (Sec. 5)(c)(1)), was adjusted from \$1,000 to \$1,100. Thus, it is no longer subject to the ten percent limitation for first time adjustments. However, in 1997, this CMP was legislatively changed to be the same amount as the CMP established in the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1858(a)), which in 1997 was \$110,000. As a consequence, the CMP for the Atlantic Striped Bass Conservation Act is being adjusted in this publication from the

1997 value of \$110,000 to \$114,000. Third, several new CMP regarding the Chemical Weapons Convention (CWC) are included in this publication and are being adjusted, though each adjustment is less than the ten percent limitation applicable to first time adjustments. In one instance, the CMP for import restriction violations under the CWC, the initial inflation adjustment is zero percent. Finally, two CMP for violations of the Public Works and Economic Development Act (PWEDA), for false statements and embezzlement, respectively, have been deleted. These CMP were deleted due to an amendment to PWEDA that made the penalties for these actions criminal.

A civil monetary penalty is defined as any penalty, fine, or other sanction that:

1. Is for a specific monetary amount as provided by Federal law, or has a maximum amount provided for by Federal law; and,

2. Is assessed or enforced by an agency pursuant to Federal law; and,

3. Is assessed or enforced pursuant to an administrative proceeding or a civil action in the Federal courts.

This regulation adjusts the civil penalties that are established by law and assessed or enforced by the Department.

The actual penalty assessed for a particular violation is dependent upon a variety of factors. For example, the National Oceanic and Atmospheric Administration (NOAA) Civil Administrative Penalty Schedule (the Schedule), a compilation of internal guidelines that are used when assessing penalties for violations for most of the statutes NOAA enforces, will be adjusted in a manner consistent with this regulation to maintain the deterrent effect of the penalties recommended therein. The penalty ranges in the Schedule are intended to aid enforcement attorneys in determining the appropriate penalty to assess for a particular violation. Pursuant to the notice published in the **Federal Register** (59 FR 19160, April 22, 1994), the Schedule is maintained and made available for inspection by the public at specific locations.

The inflation adjustment was determined pursuant to the methodology prescribed by Public Law 101-410, which requires the maximum CMP, or the minimum and maximum CMP, as applicable, to be increased by the cost-of-living adjustment. The term "cost-of-living adjustment" was defined in Public Law 104-34 to mean the percentage for each CMP by which the Consumer Price Index (CPI) for June of the calendar year preceding the adjustment exceeds the CPI for the month of June of the calendar year in

which the amount of such CMP was last set or adjusted pursuant to law. For the purpose of computing the inflation adjustments, the CPI for June of the calendar year preceding the adjustment means the CPI for June of 1999.

The raw inflation adjustment amounts are required by Public Law 101-410 to be rounded as follows:

1. If the increase is greater than \$0 and less than or equal to \$100, round to the nearest multiple of \$10.

2. If the increase is greater than \$100 and less than or equal to \$1,000, round to nearest multiple of \$100.

3. If the increase is greater than \$1,000 and less than or equal to \$10,000, round to the nearest multiple of \$1,000.

4. If the increase is greater than \$10,000 and less than or equal to \$100,000, round to the nearest multiple of \$5,000.

5. If the increase is greater than \$100,000 and less than or equal to \$200,000, round to the nearest multiple of \$10,000.

6. If the increase is greater than \$200,000, round to the nearest multiple of \$25,000.

Public Law 101-410 requires each rounded increase to be added to the minimum or maximum penalty amount being adjusted, and the total is the amount of such penalty, as adjusted, subject to the ten percent limitation provided by Public Law 104-134 for the First Adjustments.

Rulemaking Requirements

It has been determined that this rule is not significant for purposes of Executive Order 12866. The Department for good cause finds that notice and opportunity for comment and the 30-day delayed effective date are unnecessary (5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3)) for this rulemaking. It is unnecessary to ask for notice and comment and delay the effective date because the Debt Collection Improvement Act of 1996 (the Act) requires the head of each agency to adjust its civil monetary penalties for inflation by regulation no later than October 23, 1996, and at least every four years thereafter, and the Federal Civil Monetary Penalty Inflation Adjustment Act of 1990, as amended by the Act, states how to calculate the inflation adjustment. This rule merely adjusts the Department's CMP according to the statutory requirements. The Department does not have any discretion in making the adjustments.

Because notice and opportunity for comment are not required by 5 U.S.C. 553, or any other law, a Regulatory Flexibility Analysis is not required and was not prepared for purposes of the

Regulatory Flexibility Act. This rule does not contain information collection requirements for purposes of the Paperwork Reduction Act.
