[Docket No. CP00-51-003]

East Tennessee Natural Gas Company; Notice of Amendment

November 6, 2000.

Take notice that on October 27, 2000, East Tennessee Natural Gas Company (East Tennessee), Post Office Box 1642, Houston, Texas 77251-1642, filed a petition with the Commission in Docket No. CP00-51-003 to amend the Commission order issued in Docket Nos. CP00-51-000 and CP00-51-001,¹ pursuant to section 7(c) of the Natural Gas Act (NGA), to vacate, in part, authorization granted to construct, install, and operate various pipeline facilities as part of its Rocky Top

Expansion Project and to revise the directed incremental transportation rate from \$10.201 per Dekatherm of natural gas to \$8.780 per Dekatherm, all as more fully set forth in the amendment which is open to the public for inspection.

East Tennessee states that it no longer needs to undertake the following activities at the following facilities because of changes in market conditions:

(1) Increase the horsepower of three existing Solar Saturn turbine compressor units at Compressor Station 3101 near Ridgetop, Robertson County, Tennessee;

(2) Uprate 4.56 miles of 22-inch diameter pipeline between Mainline Value (MLV) 3107-1, Overton County, Tennessee, and MLV 3107-1A in Overton County, Tennessee;

(3) Uprate 12.85 miles of 22-inch diameter pipeline between MLV 3107-1A, in Overton County, Tennessee, to MLV 3108-1 in Overton County, Tennessee;

(4) Uprate the dual 10-inch Tennessee River pipeline crossings and relocate MLV 3213-1A1 and MLV 3213-1A2 assemblies within 200 feet west of their existing locations at Mile Post 3.19 in Hamilton County, Tennessee;

(5) Uprate by hydrotesting the existing Chattanooga North, Red Bank, Chattanooga East, and Chattanooga Volunteer Ordinance meter stations on the 3200 Line in Hamilton County, Tennessee;

(6) Install new bidirectional metering facilities near MLV Site 3108-1 at the existing Citizens Meter Station in Morgan County, Tennessee; and,

(7) Uprate Value Section 3105-1 from Mile Post 11.20 to Mile Post 13.57 at Cumberland River in Jackson County, Tennessee.

East Tennessee states that the revised cost estimate for the proposed additions, modifications, and testing is \$18,129,000, rather than the original cost estimate of \$21,162,000 for the new facilities. Consequently, East Tennessee proposes a revised initial incremental transportation rate to reflect the reduced scope of the facilities to be constructed as part of the Rocky Top Expansion Project. Instead of the directed incremental transportation rate of \$10.201 per Dekatherm of natural gas, East Tennessee now proposes to charge an incremental transportation rate of \$8.780 per Dekatherm of natural gas under East Tennessee's Rate Schedule FT-A.

The project is more fully set forth in the application on file with the Commission and open for public inspection. The application may be viewed on the web at www.ferc.fed.us/
