NUCLEAR REGULATORY COMMISSION

Summary and Categorization of Public Comments on the Control of Solid Materials: Notice of Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

SUMMARY: The Nuclear Regulatory Commission (NRC) is announcing the completion and availability of NUREG/CR-6682, Final Report, entitled "Summary and Categorization of Public Comments on the Control of Solid Materials."

ADDRESSES: Copies of NUREG/CR-6682, Final Report, may be obtained by writing to the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20402-9328. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161. A copy of the document is available for inspection and/or copying for a fee in the NRC Public Document Room, 11555 Rockville Pike, Room O-1F21, Rockville, Maryland. A copy is also posted on the NRC's internet web site at URL = "<http://www.nrc.gov/NMSS/IMNS/controlsolids.html>."

FOR FURTHER INFORMATION CONTACT: Giorgio Gnugnoli, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 415-7135.

SUPPLEMENTARY INFORMATION: At this time, the NRC is in the preliminary stages of examining its approach for control of solid materials and has sought public input to its decision-making process through various forums. To aid in this process, the NRC prepared an Issues Paper that described issues and alternatives related to release of solid materials. This Issues Paper was

published in the **Federal Register** on June 30, 1999, (64 FR 35090). That **Federal Register** Notice (FRN) provided for an opportunity to submit public comments on the Issues Paper, in general, and specifically on the NRC examination of its approach for control of solid material. The closing period for public comments was originally November 15, 1999, but was extended until December 22, 1999. The FRN invited public comment on the paper and, to provide further opportunity for public input, the NRC held a series of public meetings during Fall 1999 at the following four locations: (1) San Francisco, CA on September 15-16, 1999; (2) Atlanta, GA on October 5-6, 1999; (3) Rockville, MD on November 1-2, 1999; (4) Chicago, IL on December 7-8, 1999.

The Issues Paper described the following 2 process alternatives: (1) Continue current NRC practice of case-by-case consideration of licensee requests for release of solid material or consider updating existing guidance; and (2) conduct a rulemaking to establish criteria for control of solid materials.

Over 800 comments have been received on the Issues Paper. The majority of the comments focused on the specific technical approaches. With the assistance of contractors, the public meeting transcripts and the public comments received by the NRC staff were collected and organized into a database to facilitate NRC staff review of the public comment. The NUREG/CR-6682 provides a summary and characterization of the public comments and meetings, as well as major trends in the comments.

Various sections of the NUREG/CR-6682 summarize comments received on the process alternatives for establishing criteria for control of solid material. These alternatives include continuing the current case-by-case approach or whether to conduct a rulemaking. Moreover, the NUREG/CR-6682 summarizes comments on the technical approaches as to what the criteria should be. Finally, comments on development of NRC's technical information base, other procedural issues, international issues, and materials that should be considered are also addressed.

The public comments received were discussed in SECY-00-0070, dated March 23, 2000, which provided the Commission with a summary of results of the public meetings. They were also part of the information available to the Commission in making a decision, on August 18, 2000, to defer a final decision on whether to proceed with

rulemaking and in providing direction to the NRC staff to proceed with a National Academy of Sciences study on alternatives and to continue with development of a technical information base. The comments will be used by the NRC in its continuing evaluation of this issue.

Dated at Rockville, Maryland, this 9th day of November 2000.

For the Nuclear Regulatory Commission.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27277]

Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

November 13, 2000.

Notice is hereby given that the following filings(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by December 8, 2000, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After December 8, 2000, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

American Electric Power Company, Inc. (70-8429)

American Electric Power Company, Inc. ("AEP"), a registered holding company, and its wholly owned subsidiary, AEP Resources, Inc. ("Resources", and together with AEP, "Applicants"), both located at 1 Riverside Plaza, Columbus, Ohio 43215, have filed a post-effective amendment under sections 6(a), 7, 9(a), 10, 12(b), 32 and 33 of the Act and rules 45 and 53 under the Act to their application-declaration previously filed under the Act.

By orders dated December 22, 1994, May 10, 1996 and April 27, 1998 ("Prior Orders") (HCAR Nos. 26200, 26516 and 26864), the Commission authorized AEP and Resources to, among other things, issue debt and equity securities ("Securities")¹ through December 31, 2000, for investment in "exempt wholesale generators" ("EWGs") and "foreign utility companies" ("FUCOs"), as defined in sections 32 and 33 of the Act. AEP and Resources were also authorized to acquire the securities of one or more companies ("Project Parents") that directly or indirectly hold the securities of one or more EWGs or FUCOs ("Power Projects"). The Prior Orders also provided authority for AEP to guarantee the obligations of Resources, for AEP and Resources to guarantee the obligations of one or more Project Parents or Power Projects, and for Project Parents to guarantee the obligations of their Power Projects² all in an aggregate amount which, together with the proceeds of the Securities, would not exceed 100% of AEP's consolidated retained earnings, as defined in rule 53(a) under the Act ("Investment Limitation").

By order dated June 14, 2000 (HCAR No. 27186), the Commission approved the merger of AEP and Central and South West Corporation ("CSW"), a

registered holding company. In the order, the Commission also increased the Investment Limitation to allow AEP to issue and sell Securities and provide guarantees in an amount of up to 100% of AEP and CSW's combined consolidated retained earnings after giving effect to the merger ("Modified Investment Limitation").

The Applicants now request authority for AEP to extend, through June 30, 2005 and within the Modified Investment Limitation, AEP's authority under the Prior Orders to issue and sell Securities and to guarantee the indebtedness and other financial commitments of Resources, Project Parents and Power Projects for investments in EWGs and FUCOs. The Applicants separately request authority, through June 30, 2005, for Resources to guarantee obligations, other than indebtedness,³ of Project Parents and Power Projects, and for Project Parents to guarantee obligations of Power Projects, other than indebtedness, each in amounts not exceeding \$3 billion outstanding at any time.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.

¹ In particular, AEP was authorized to issue and sell up to ten million shares of its common stock and to incur short-term debt in the form of notes issued to banks and commercial paper. Resources was authorized to incur short-term and long-term debt. The Applicants state that, because of the adoption of rule 52, any securities issuance by any associate company, other than AEP, constitutes an exempt transaction under the rule.

² The Prior Orders provided that AEP could guarantee Resources' issuance of long-term notes having terms of not less than nine months nor more than twenty years, bearing interest at a fixed rate, a fluctuating rate or a combination of fixed and fluctuating rates. AEP was authorized also to guarantee borrowings by Resources under lines of credit that would generally bear interest at an annual rate not greater than the prime commercial rate in effect from time to time. Finally, the prior Orders authorized AEP to guarantee the issuance and sale of commercial paper by Resources maturing not more than 270 days from the date of issuance.
