Affected entities: Entities potentially affected by this action are owners and

operators of hazardous waste treatment, storage, and disposal facilities.

Title: Land Disposal Restrictions No-Migration Variances, EPA ICR Number 1353, OMB Control Number 2050-0062, current expiration date May 31, 2000.

Abstract: To receive a variance from the hazardous waste land disposal prohibitions, owner/operators of hazardous waste storage or disposal facilities may petition the Environmental Protection Agency to allow land disposal of a specific restricted waste at a specific site. The EPA Regional Offices will review the petitions and determine if they successfully demonstrate "no migration." The applicant must demonstrate that hazardous wastes can be managed safely in a particular land disposal unit, so that "no migration" of any hazardous constituents occurs from the unit for as long as the waste remains hazardous. (See 40 CFR 268.6.) If EPA grants the variance, the waste is no longer prohibited from land disposal in that particular unit. If the owner/operator fails to make this demonstration, or chooses not to petition for the variance, best demonstrated available technology (BDAT) requirements of 40 CFR 268.40 *et seq* must be met before the hazardous wastes are placed in a land disposal unit.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The Agency is estimating that no more than one

respondent will prepare and submit a No-Migration variance petition during the three year period of this ICR. EPA estimates that the total annual respondent burden for all information collection activities will be approximately 3,137 hours, at an annual cost of \$187,136. The annual cost includes annual capital start up and operation and maintenance costs of approximately \$180. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: February 14, 2000.

Elizabeth A. Cotsworth,

Director, Office of Solid Waste.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Recordkeeping and Reporting Requirements Under EPA's Energy Star Homes Program, EPA ICR No. 1879.01. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 23, 2000.

For technical questions about the ICR contact Glenn Chinery at (202) 564-9784.

SUPPLEMENTARY INFORMATION:

Title: Recordkeeping and Reporting Requirements Under EPA's Energy Star Homes Program; EPA ICR No. 1879.01.) This is a new collection.

Abstract: This ICR covers recordkeeping and reporting activities for both participation in the Energy Star Homes Program as well as participation in a three-year impact evaluation of the Energy Star Homes Program. The Energy Star Homes Program Impact Evaluation is designed to evaluate the effectiveness of the program in meeting the program's stated objectives. The evaluation will cover Energy Star Homes built during 1997-98 (the "first year"), 1999 (the "second year"), and 2000 (the "third year"). The evaluation consists of surveying Energy Star homebuyers, non-Energy Star homebuyers (hereafter referred to as "Control" homebuyers), Energy Star builder partners, energy suppliers, and Home Energy Rating System (HERS) providers. By collecting information from these different constituents, EPA will be able to determine whether Energy Star homebuyers are satisfied with their purchase; builder partners are meeting their business objectives; and Energy Star homes are delivering the pollution prevention promised. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 10/05/98 (63 FR 53415), no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for participation on the Energy Star Homes Program is estimated to be 3.7 hours per participant. The burden for the respondents participating in the Impact Evaluation is estimated to average 0.22 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency.
