Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Pursuant to section 408 of ERISA, the Department has authority to grant an exemption from the prohibitions of sections 406 and 407(a) if it can determine that the exemption is administratively feasible, in the interest of participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan. Prohibited Transaction Class Exemption 85-68 describes the conditions under which a plan is permitted to acquire customer notes accepted by an employer of employees covered by the plan in the ordinary course of the employer's primary business activity. The exemption covers sales as well as contributions of customer notes by an employer to its plan. Specifically, the exemption requires that the employer provide a written guarantee to repurchase a note which becomes more than 60 days delinquent, that such notes be secured by a perfected security interest in the property financed by the note, and that the collateral be insured. This ICR requires that records pertaining to the transaction be maintained for a period of six years for the purpose of ensuring that the transactions are protective of the rights of participants and beneficiaries.
