

Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, and electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room). If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the

hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses. Since the Commission has made a final determination that the amendment involves no significant hazards consideration, if a hearing is requested, it will not stay the effectiveness of the amendment. Any hearing held would take place while the amendment is in effect.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-001, and to the attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

*Entergy Nuclear Operations, Inc.,*  
Docket No. 50-286, Indian Point  
Nuclear Generating Unit No. 3,  
Westchester County, New York  
Date of amendment request:  
December 19, 2000.

Description of amendment request:  
The amendment revises the Technical

Specifications to indicate that quadrant power tilt limits apply only when reactor power is greater than 50 percent.

Date of issuance: December 20, 2000.

Effective Date: As of its date of issuance and shall be implemented within 30 days.

Amendment No.: 204.

Facility Operating License No. DPR-64: Amendment revises the Technical Specifications.

Public comments requested as to proposed no significant hazards consideration: No.

The Commission's related evaluation of the amendment, finding of emergency circumstances, and final determination of no significant hazards consideration are contained in a Safety Evaluation dated December 20, 2000.

Attorney for licensee: Mr. John M. Fulton, Assistant General Counsel  
Entergy Nuclear Generating Co. Pilgrim  
Station, 600 Rocky Hill Road Plymouth,  
MA 02360.

NRC Section Chief: Marsha  
Gamberoni.

Dated at Rockville, Maryland, this 14th day  
of February 2001.

For the Nuclear Regulatory Commission.

John A. Zwolinski,

Director, Division of Licensing Project  
Management, Office of Nuclear Reactor  
Regulation.

## SECURITIES AND EXCHANGE COMMISSION

### Proposed Collection; Comment Request

Upon Written Request, Copies Available  
From: Securities and Exchange  
Commission, Office of Filings and  
Information Services, Washington, DC  
20549.

#### Extension:

Form SE, OMB Control No. 3235-  
0327, SEC File No. 270-289;  
Form ID, OMB Control No. 3235-  
0328, SEC File No. 270-291;  
Form ET, OMB Control No. 3235-  
0329, SEC File No. 270-290; and  
Form TH, OMB Control No. 3235-  
0425, SEC File No. 270-377.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget for extension and approval.

Form SE is used by registrants to file paper copies of exhibits that would be difficult or impossible to submit electronically. The information contained in Form SE is used by the Commission to identify paper copies of exhibits and is filed by individuals, companies or other for-profit organizations that are required to file electronically. It is estimated that 110 registrants file Form SE at an estimated 0.10 hours per response for a total annual burden of 11 hours.

Form ID is used by companies to apply for identification numbers and passwords used in conjunction with the EDGAR electronic filing system. The information provided on Form ID is essential to the security of the EDGAR system. Form ID must be filed every time a registrant or other person obtains or changes an identification number. The form is filed by individuals, companies or other for-profit organizations that are required to file electronically. It is estimated that 7,000 registrants file Form ID at an estimated 0.15 hours per response for a total annual burden of 1,050 hours.

Form ET is used by companies to facilitate the transfer of information submitted to the Commission on magnetic tapes to the EDGAR system. Form ET provides technical information about the magnetic tape cartridge contents and identifies a contact person who can answer any questions about the tape cartridge. Form ET must be filed every time a filing is submitted to the Commission on magnetic tape to identify such filings. The form is filed by individuals, companies or other for-profit organizations that are required to file electronically. It is estimated that 120 registrants file Form ET at an estimated 0.25 hours per response for a total annual burden of 30 hours.

Form TH is used by registrants to notify the Commission that an electronic filer is relying on the temporary hardship exemption for the filing of a document in paper format that would otherwise be required to file electronically as prescribed by Rule 201(a) of Regulation S-T. The form must be filed every time an electronic filer experiences unanticipated technical difficulties preventing the timely preparation and submission of a required electronic filing. It is estimated that 15 registrants file Form TH at an estimated 0.33 hours per response for a total annual burden of 5 hours.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549.

Dated: February 8, 2001.

**Margaret H. McFarland,**

*Deputy Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27346]

### Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

February 14, 2001.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by March 12, 2001, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After March 12, 2001, the

application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

### Alliant Energy Corporation, et al.

[70-9837]

*Notice of Proposal To Amend Articles of Incorporation To Issue New Preferred Stock; Approve Merger; Increase in Utility Money Pool Borrowing Limits and Long-Term Debt Limits; Order Authorizing Solicitation of Proxies*

Alliant Energy Corporation ("Alliant"), a registered holding company, 222 West Washington Avenue, Madison, Wisconsin 53703, and two of its wholly-owned gas and electric utility subsidiary companies, Interstate Power Company ("IPC"), 1000 Main Street, P.O. Box 759, Dubuque, Iowa 52004, and IES Utilities Inc. ("IESU"), Alliant Energy Tower, 200 First Street SE., Cedar Rapids, Iowa 52401, each a public utility subsidiary of Alliant (collectively, "Applicants"), have filed an application-declaration under sections 6(a), 7, 9(a), 10, 12(b), 12(c), 12(d) and 12(e) of the Act and rules 43, 44, 45, 54, 62 and 65 under the Act.

Applicants propose to merge IPC into IESU ("Merger", and the surviving company, "New IESU"). IPC and IESU have operated as an interconnected and coordinated electric utility system since 1998 under a System Coordination and Operating Agreement ("SCOA") on file at the Federal Energy Regulatory Commission ("FERC"). Under the SCOA, IPC and IESU allocate costs for joint dispatch of electric generation facilities and certain transmission services are available over their combined transmission systems at a single rate.

Applicants state that the Merger will simplify Alliant's corporate structure and reduce corporate and administrative expenses, as well as allow New IESU to offer competitive rates to consumers.

IPC provides electricity to approximately 167,000 customers in northern and northeastern Iowa, southern Minnesota, and portions of northwestern Illinois. IPC also serves approximately 50,000 natural gas customers in Illinois, Minnesota and Iowa. IPC also owns approximately 2,562 miles of electric transmission lines and 224 substations. Its gas transportation and distribution system consists of approximately 91 miles of pipelines and 916 miles of distribution mains.<sup>1</sup>

<sup>1</sup> IPC's operating revenues for the year ended December 31, 1999 were \$342,105,000, of which
