⁴ For purposes of these investigations, the term
“stainless steel bar” includes articles of stainless
steel in straight lengths that have been either hot-
rolled, forged, turned, cold-drawn, cold-rolled or
otherwise cold-finished, or ground, having a
uniform solid cross section along their whole length
in the shape of circles, segments of circles, ovals,
rectangles (including squares), triangles, hexagons,
octagons, or other convex polygons. Stainless steel
bar includes cold-finished stainless steel bars that
are turned or ground in straight lengths, whether
produced from hot-rolled bar or from straightened
and cut rod or wire, and reinforcing bars that have
indentations, ribs, grooves, or other deformations
produced during the rolling process.

Except as specified above, the term does not
include stainless steel semi-finished products, cut
length flat-rolled products (i.e., cut length rolled
products which if less than 4.75 mm in thickness
have a width measuring at least 10 times the
thickness, or if 4.75 mm or more in thickness
having a width which exceeds 150 mm and
measures at least twice the thickness), products that
have been cut from stainless steel sheet, strip, or
plate, wire (i.e., cold-formed products in coils, of
any uniform solid cross section along their whole
length, which do not conform to the definition of
flat-rolled products), and angles, shapes and

the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

The Commission instituted these investigations effective December 28, 2000, following receipt of a petition filed with the Commission and the Department of Commerce by Carpenter Technology Corp. (Wyomissing, PA); Crucible Specialty Metals (Syracuse, NY); Electralloy Corp. (Oil City, PA); Empire Specialty Steel, Inc. (Dunkirk, NY); Slater Steels Corp., Specialty Alloys Division (Fort Wayne, IN); and the United Steelworkers of America, AFL-CIO/CLC (Pittsburgh, PA), alleging that an industry in the United States is materially injured and threatened with material injury by reason of imports of stainless steel bar from France, Germany, Italy, Korea, Taiwan, and the United Kingdom, that are alleged to be sold in the United States at LTFV, and by reason of imports of stainless steel bar from Italy that are alleged to be subsidized by the Government of Italy. Accordingly, effective December 28, 2000, the Commission instituted countervailing duty investigation No. 701-TA-413 (Preliminary) and antidumping investigations Nos. 731-TA-913-918 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of January 4, 2001 (66 FR 807). The conference was held in Washington, DC, on January 18, 2001, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on February 12, 2001. The views of the Commission are contained in USITC Publication 3395 (February 2001), entitled *Stainless Steel Bar From France, Germany, Italy, Korea, Taiwan, and the United Kingdom: Investigations Nos. 701-TA-413 and 731-TA-913-918* (Preliminary).

Issued: February 13, 2001.

Background

As requested by the USTR, the Commission will provide information on U.S. market conditions, including domestic demand, domestic supply, and domestic production for men's and boys' worsted wool suits, suit-type jackets, and trousers; worsted wool fabric and yarn used in the manufacture of such clothing; and wool fibers used in the manufacture of such fabrics and yarn. Also as requested by the USTR,

the Commission will provide, to the extent possible, data on:

(1) Increases or decreases in sales and production of the subject domestically-produced worsted wool fabrics;

(2) Increases or decreases in domestic production and consumption of the subject apparel items;

(3) The ability of domestic producers of the subject worsted wool fabrics to meet the needs of domestic manufacturers of the subject apparel items in terms of quantity and ability to meet market demands for the apparel items;

(4) Sales of the subject worsted wool fabrics lost by domestic manufacturers to imports benefiting from the temporary duty reductions on certain worsted wool fabrics under the tariff-rate quotas (TRQs) provided for in headings 9902.51.11 and 9902.51.12 of the Harmonized Tariff Schedule of the United States (HTS);

(5) Loss of sales by domestic manufacturers of the subject apparel items related to the inability to purchase adequate supplies of the subject worsted wool fabrics on a cost competitive basis; and

(6) The price per square meter of imports and domestic sales of the subject worsted wool fabrics.

The USTR requested that the Commission submit two "annual reports" and an "interim letter" under this investigation. The first annual report, providing data for 1999, 2000, and year-to-date 2000-01, was requested by September 17, 2001, and the second annual report, providing data for 2001 and year-to-date 2001-02, was requested by September 16, 2002. In the interim, the USTR requested that the Commission provide by letter (interim letter) the most comprehensive information available on the factors described above for the period from January 1, 1999, to the present. The Commission was requested to submit this interim letter to USTR within 45 days after the U.S. Department of Commerce publishes a notice in the **Federal Register** soliciting requests from U.S. manufacturers of men's and boys' worsted wool suits, suit-type jackets, and trousers to modify the limitations on the quantity of imports of worsted wool fabrics under the TRQs provided for in HTS headings 9902.51.11 and 9902.51.12. USTR requested that the Commission issue public versions of the interim letter and the two annual reports, as soon as possible thereafter, with any business confidential information deleted.

In the request letter, the USTR referred to Title V of the Trade and Development Act of 2000 (the Act),
