SUPPLEMENTARY INFORMATION:

Title: Exports from and Imports to the United States under International and Bilateral Waste Agreements; OMB Control Number 2050-0143; EPA ICR No. 1647.03; expiring March 31, 2001. This is a request for extension of a currently approved collection.

Abstract: Authority for this information collection is found in sections 2002(a) and 3017(a)(2) and (f) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, and as amended by the Hazardous and Solid Waste Amendments, 42 U.S.C. 6901 *et seq.* The Organization for Economic Cooperation and Development (OECD) Decision is considered legally binding on the United States under Articles 5(a) and 6(2) of the OECD Convention, 12 U.S.T. 1728. In addition, the OECD Decision and EPA's rule implementing the OECD Decision in 40 CFR part 262, subpart H (61 FR 16290; April 12, 1996) impose requirements on U.S. exporters and importers for shipments of hazardous waste for recovery to and from OECD member countries. EPA also imposes requirements on hazardous waste exports and imports to and from other countries in 40 CFR part 262, subparts E and F, respectively (August 8, 1986; 51 FR 28664). U.S. EPA's Office of Enforcement and Compliance Assurance uses the information provided by each U.S. exporter and importer to determine compliance with the applicable RCRA regulatory provisions. In addition, the information will be used to determine the number, origin, destination, and type of exports from and imports to the U.S. for tracking purposes and for reporting to the OECD. This information also will be used to assess the efficiency of the program. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information, was published on November 1, 2000 (65 FR 65304); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 10 hours per exporter and 1 hour per importer.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Exporters and Importers of Hazardous Wastes to U.S.

Estimated Number of Respondents: 1,562.

Estimated Total Annual Hour Burden: 9,334.

Estimated Total Annualized Capital, O&M Cost Burden: \$1,015.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggestions for minimizing respondent burden, including the use of automated estimates, and any suggestions for minimizing respondent burden, including the use of automated collection techniques to the addresses listed above. Please refer to the EPA ICR Number 1647.03 Control Number 2050-0143 in any correspondence.

Dated: February 13, 2001.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Establishing No-Discharge Zones Under the Clean Water Act Section 312

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management

and Budget (OMB) for review and approval: Establishing No-Discharge Zones (NDZs) Under the Clean Water Act Section 312, EPA ICR Number 1791.03, OMB Control Number: 2040-0187 and current expiration date of February 28, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 30, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1791.03 and OMB Control No. 2040-0187, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at

Farmer.sandy@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1791.03. For technical questions about the ICR, contact James Woodley at EPA by phone at (202) 260-1998 in the Office of Wetlands, Oceans, and Watersheds.

SUPPLEMENTARY INFORMATION: **Title:** Establishing No-Discharge Zones Under Clean Water Act Section 312 (OMB Control Number 2040-0187; EPA ICR Number 1791.03) expiring 02/28/2001. This is a request for extension of a currently approved collection.

Abstract: (A) UNDS No-discharge Zones: Under section 312(n) of the Clean Water Act ("Uniform National Discharge Standards for Vessels of the Armed Forces" or "UNDS") no-discharge zones ("NDZs") for discharges from Armed Forces vessels may be established by either State prohibition or EPA prohibition following the procedures in 40 CFR part 1700. UNDS also provides that the Governor of any State may petition EPA and the Secretary of Defense to review any determination or standard promulgated under the UNDS program if there is significant new information that could reasonably result in a change to the determination or standard. This ICR discusses the information that will be required from a State if it decides to establish a NDZ by State prohibition or apply for a NDZ by EPA prohibition, and the information that will be

required from a State if it decides to submit a petition for review. The responses to this collection of information are required to obtain the benefit of an UNDS NDZ or a review of an UNDS determination or standard (see 33 U.S.C. 1322(n)). The information collection activities discussed in this ICR do not require the submission of any confidential information.

(B) Sewage No-discharge Zones: The need for EPA to obtain information for the establishment of no-discharge zones (NDZs) for vessel sewage in State waters stems from CWA sections 312(f)(3), (f)(4)(A), and (f)(4)(B), and subsequent regulations at 40 CFR 140.4(a-c). No-discharge zones are established to provide State and local governments with additional protection of waters from treated or untreated vessel sewage. There are 3 ways in which NDZs for vessel sewage can be established. This ICR discusses the information requirements associated with the establishment of NDZs for vessel sewage. The responses to this collection of information are required to obtain the benefit of a sewage NDZ (see 33 U.S.C. 1322). The information collection activities discussed in this ICR do not require the submission of any confidential information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on May 19, 2000 (65 FR 31894) of the **Federal Register** and no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 144 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States.
Estimated Number of Respondents: 16 per year.

Frequency of Response: one time collection.

Estimated Total Annual Hour Burden: 2207 hours per year.

Estimated Total Annualized Capital, O&M Cost Burden: \$2,300.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1791.03 and OMB Control No. 2040-0187 in any correspondence.

Dated: February 13, 2001.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[AMS-FRL-6948-5]

Control of Air Pollution From New Motor Vehicles; Low Sulfur Gasoline Refinery Hardship Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comments.

SUMMARY: In December 1999, we promulgated the Tier 2/Gasoline Sulfur final rule (see 65 FR 6698, February 10, 2000) for more stringent vehicle emission standards and low sulfur

gasoline. This action included a provision which allows refiners to seek temporary relief from the regulations based on a showing of unusual circumstances that impose extreme hardship and significantly affect their ability to comply by the required date, as well as other factors. This provision also requires refiners to make best efforts to comply with low sulfur gasoline requirements. Through this action, we are inviting comment on the applications and relief requested for three refiners whose application is under active assessment. The public is invited to provide comment on this matter.

DATES: Any comment should be provided to the EPA by March 21, 2001.

ADDRESSES: *Comments:* Send paper or e-mail comments to the contact person listed below. If applicable, commenters should specify which application they are addressing.

FOR FURTHER INFORMATION CONTACT: Tad Wysor, U.S. EPA, National Vehicle and Fuels Emission Laboratory, Assessment and Standards Division, 2000 Traverwood, Ann Arbor, MI 48105; telephone (734) 214-4332, fax (734) 214-4816, e-mail wysor.tad@epa.gov.

SUPPLEMENTARY INFORMATION: In the Tier 2/Gasoline Sulfur final rule, we established standards to limit the sulfur content of gasoline beginning in 2004. As part of this rule, we included provisions permitting refiners to seek temporary relief from these requirements based on a showing of unusual circumstances that impose extreme hardship and significantly affect the refiner's ability to comply by the required date, as well as other factors. This provision also requires the refiners to make best efforts to comply with the low sulfur gasoline requirements (see 40 CFR 80.270). At this time, we are actively considering applications from three refiners. These applicants are identified below with their refinery's total crude oil capacity in barrels per calendar day and a general description of the relief they are seeking:

Refinery	Location	Crude capacity (bped)*	Relief sought
United Refining Company	Warren, PA	65,000	Same as small refiner program. 150 ppm avg/300 ppm cap for 2004-2007.
Wyoming Refining	Newcastle, WY	9,995	
National Cooperative Refinery Assoc. (NCRA)	McPherson, KS	77,400	Interim sulfur reductions with full compliance in June 2006.

*Based on data from the Department of Energy's Energy Information Administration Petroleum Supply Annual 1999, Vol. 1 as of January 1, 2000.
