

We are now in the process of reviewing and evaluating these hardship applications according to the provisions of 40 CFR 80.270. Although the review and determination associated with these applications does not involve a rulemaking, we believe it is important to provide public notice of these applications and to provide opportunity for public comment. The applicants have requested that we treat most of the information in their applications as business proprietary "Confidential Business Information" under 40 CFR part 2.

Any party wishing to provide us input on these applicants in the context of 40 CFR 80.270 or to provide what they otherwise consider to be relevant materials should direct these to the contact person listed above by March 21, 2001. We will consider any relevant information provided in our evaluation of these applications.

Dated: February 16, 2001.

Robert D. Brenner,

Acting Assistant Administrator for Air and Radiation.

Notice of Reopening of the Comment Period for Method 203: Determination of the Opacity of Emissions From Stationary Sources by Continuous Opacity Monitoring Systems

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: We, the Environmental Protection Agency (EPA), are reopening the comment period in order to afford the public the opportunity to provide new, clarifying, or updated comments on Method 203, part 51, appendix M, which was proposed on October 7, 1992 (57 FR 46114). Method 203 specifies quality assurance requirements and procedures that must be performed by the continuous opacity monitoring system (COMS) operator after the initial demonstration of compliance with Performance Specification 1 (PS-1). We will consider these comments in deciding whether to re-propose Method 203 in its entirety, publish a supplemental proposal on Method 203, or to publish an amended version of Method 203 as a Final Rule. We believe it is necessary to reopen the comment period as a courtesy to the public due

to the length of time since the original proposal. It was decided to delay the Method 203 proposal until the revisions to PS-1 were promulgated. Also, we were aware that the PS-1 revisions would have an impact on any action taken with Method 203, therefore we wanted to give the public the opportunity to comment on Method 203 as it relates to the revisions to PS-1 (65 FR 48885). PS-1 outlines the design and performance requirements for COMS.

DATES: *Comments.* Comments must be received on or before March 30, 2001.

ADDRESSES: *Comments.* Comments should be submitted (in duplicate) to: Office of Air and Radiation Docket and Information Center (Mail code 6102), Attention: Docket Number A-91-08, U.S. Environmental Protection Agency, 401 M Street S.W., Washington, DC 20460.

Docket. Docket number A-91-08, containing materials relevant to this rulemaking, is available for public inspection and copying between 8:00 a.m. to 5:30 p.m., on all federal government work days at the Office of Air and Radiation Docket and Information Center. The Docket is located at 401 M Street S.W., Washington, DC 20460, room number M-1500. A reasonable fee may be charged for the duplication of materials.

FOR FURTHER INFORMATION CONTACT: Mr. Solomon Ricks at (919) 541-5242, U.S. EPA, Emission Measurement Center, Research Triangle Park, North Carolina, 27711.

SUPPLEMENTARY INFORMATION: On October 7, 1992, we proposed Method 203 (57 FR 46114) as a means of providing states with an instrumental test method which could be used in determining, on a continuous basis, compliance with stationary source opacity emission limitations. In view of the significant amount of time that has passed since the proposal was published, we believe it is appropriate to offer the public another opportunity to comment on proposed Method 203. In particular, we are seeking comment on whether the requirements and procedures outlined in the proposal remain appropriate, or whether newer technologies and/or procedures have become available which we should consider before taking final action on this proposed rule.

Subsequent to the proposal, we received comments questioning whether Method 203, when adopted, should be codified at 40 CFR part 51, appendix M, as proposed. Commenters suggested that it would be more appropriate to codify this method at 40 CFR part 60, appendix F because the proposed method outlines

the quality assurance procedures for COMS, and appendix F contains quality assurance procedures for continuous monitoring equipment. For this reason, we also seek public comment on placing Method 203 in part 60, appendix F as "Procedure 2. Quality Assurance Requirements for Continuous Opacity Monitoring Systems Used for Compliance Determination." Based on comments provided during this additional 30-day comment period, we will take appropriate action on the proposed Method 203, which may include re-proposing the rule in its entirety, issuing a supplemental notice of proposed rulemaking, or adopting the rule in final form, with only minor changes. We will make the comments received during this comment period available to the public through the public docket (Docket Number A-91-08). A draft document containing a summary of the comments received on the 1992 proposal is also available in the public docket.

You may download a copy of proposed Method 203 via the world wide web at <http://www.epa.gov/ttnemc01/frpromth.html>. In addition, you may obtain copies of the 1992 proposal and previously submitted public comments through Docket Number A-91-08, which contains all materials relevant to this rulemaking, and is available for public inspection between 8:00 a.m. and 5:30 p.m., Monday through Friday (except for Federal holidays) at the following address: U.S. Environmental Protection Agency, Office of Air and Radiation Docket and Information Center (MC-6102), Room M-1500, 401 M Street S.W., Washington, DC 20460, telephone: (202) 260-7548. A reasonable fee may be charged for copying.

Dated: February 16, 2001.

Robert D. Brenner,

Acting Assistant Administrator, for Air and Radiation.

ABC One Hour Dry Cleaners Superfund Site; Notice of Proposed Settlement

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed settlement.

SUMMARY: The United States Environmental Protection Agency is

proposing to enter into a settlement with ABC One Hour Dry Cleaners, Inc., Victor Melts and Martha Melts pursuant to section 122(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, regarding the ABC One Hour Dry Cleaners Superfund Site located in Jacksonville, North Carolina. EPA will consider public comments on the proposed settlement for thirty (30) days. EPA may withdraw from or modify the proposed settlement should such comments disclose facts or considerations which indicate the proposed settlement is inappropriate, improper or inadequate. Copies of the settlement are available from: Ms. Paula Batchelor, U.S. EPA, Region 4 (WMD-CPSB), Sam Nunn Atlanta Federal Center, 61 Forsyth Street, S.W., Atlanta, Georgia 30303, (404) 562-8887.

Written comments may be submitted to Ms. Batchelor within thirty (30) calendar days of the days of this publication.

Dated: February 6, 2001.

Franklin E. Hill,

*Chief, CERCLA Program Services Branch,
Waste Management Division.*

Notice of Proposed Administrative Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the BPS, Inc. Superfund Site, ("Site") with BPS Pesticide Incorporated ("Settling Party"), the United States Environmental Protection Agency ("EPA"), and the United States Department of Justice (DOJ).

The settlement requires the Settling Party to reimburse EPA for Past Response Costs in the amount of \$54,772.37 in connection with a response action at the Site.

Within 30 days of the effective date of this Agreement, and consistent with

Paragraph 10 of the Settlement Agreement, the Settling Party shall pay to the EPA Hazardous Substance Superfund, \$54,772.37 in reimbursement of Past Response Costs, plus an additional sum for Interest on that amount calculated from the date set forth in the definition of Past Response Costs through the date of payment.

The settlement includes a covenant not to sue under Section 107 of CERCLA, 42 U.S.C. 9607.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may withdraw or withhold its consent to the proposed settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at 1445 Ross Avenue, Dallas, Texas, 75202-2733.

DATES: Comments must be submitted on or before March 30, 2001.

ADDRESSES: The proposed settlement and additional background information relating to the settlement are available for public inspection at 1445 Ross Avenue, Dallas, Texas, 75202-2733. A copy of the proposed settlement may be obtained from Barbara J. Aldridge (6SF-AC), U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas, 75202-2733 at (214) 665-2712. Comments should reference the BPS, Inc. Superfund Site, West Helena, Arkansas, and EPA Docket Number 6-12-00, and should be addressed to Joseph E. Compton III at the address listed below.

FOR FURTHER INFORMATION CONTACT: Joseph E. Compton III, (6RC-S), U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas, 75202-2733 at (214) 665-8506.

Dated: January 17, 2001.

Gregg A. Cooke,

Regional Administrator, Region 6.

Copper Basin Mining District Superfund Site; Notice of Proposed Settlement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed agreement.

SUMMARY: The United States Environmental Protection Agency is proposing to enter into an agreement with OXY USA, Inc. and Glenn Springs Holdings, Inc. pursuant to section 122 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, regarding the Copper Basin Mining District Superfund Site located in Polk County, Tennessee and Fannin County, Georgia. EPA will consider public comments on the proposed settlement for thirty (30) days. EPA may withdraw from or modify the proposed settlement should such comments disclose facts or considerations which indicate the proposed settlement is inappropriate, improper or inadequate. Copies of the proposed settlement are available from: Ms. Paula V. Batchelor, U.S. EPA, Region 4 (WMD-CPSB), Sam Nunn Atlanta Federal Center, 61 Forsyth Street, S.W., Atlanta, Georgia 30303, (404) 562-8887.

Written comments may be submitted to Ms. Batchelor within thirty (30) calendar days of the date of this publication.

Dated: February 6, 2001.
