II. Background

A. Purpose of the Meeting

This 1-day meeting concerns scientific issues undergoing consideration within the EPA Office of Pesticide Programs (OPP). The purpose of this meeting is the review of key features of the LifeLine® Model to include the software code, data requirements, data inputs, and output reports. The presentation will focus on the operating system and will solicit

panel comments and advice with respect to the transparency and operation of the model. LifeLine® is a model for assessing aggregate and cumulative exposures and risks from pesticides. Previous SAP presentations for LifeLine® focused on model design (September 1999) and model utility (September 2000). To assist the Panel in the evaluation of LifeLine® each Panel member will be provided a copy of the LifeLine® software and supporting documentation. The Panel will also be provided with hypothetical, yet representative, residue and toxicological data sets for assessing aggregate and cumulative exposure and risk via the dietary, residential, and drinking water pathways. Interested public parties can obtain a copy of the LifeLine® software by contacting the LifeLine Group, Inc., at <http://www.hrlifeline.org>. This program is copyrighted and there will be a charge for a copy of the program.

B. Panel Report

Copies of the Panel's report of their recommendations will be available approximately 45 working days after the meeting, and will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information Records Integrity Branch (PIRIB) at the address and telephone listed under Unit I of this document.
