

organizations that may be interested in or affected by the proposed action.

To facilitate public participation several measures are being taken. Information about the project proposal is being mailed to all who are on the current list to receive scoping information from the Redbird Ranger District. Public notices are being published four consecutive times in the newspapers of Perry, Leslie and Owsley Counties, Kentucky and once each in the Manchester Enterprise, Manchester, Kentucky and the Herald Leader, Lexington, Kentucky. Public notices are also being placed at post offices in the vicinity of the exchange tracts.

Additionally, the public may visit Forest Service officials at any time during the analysis and prior to the decision.

Comments submitted during the scoping process should be in writing. They should be specific to the action being proposed and should describe as clearly and completely as possible any issues the commenter has with the proposal. This input will be used in preparation of the Draft Environmental Impact Statement (DEIS). The scoping process includes:

- (a) Identifying potential issues.
- (b) Identifying issues to be analyzed in depth.
- (c) Eliminating nonsignificant issues or those previously covered by a relevant previous environmental analysis.
- (d) Exploring additional alternatives.
- (e) Identifying potential environmental effects of the proposed action and alternatives.

Preliminary Issues

Preliminary issues identified for the proposed exchange are as follows:

- (a) If exchanged, it is likely that Tract 107Ab will be strip mined, using the controversial method known as "mountain top removal".
- (b) Consolidation through the purchase of land is preferred to exchange by some people. National Forest lands should not be given up once acquired.

Preliminary Alternatives

- (a) No Action: The exchange would not take place.
- (b) Proposed Action: The Daniel Boone National Forest would exchange Tract 107Ab (52.15 acres), located on Langdon Branch in Leslie County, Kentucky, and Tract 745 (39.96 acres), located on Spicer Fork in Perry County, Kentucky for a 98.17 acre tract located on the Rock House Branch of Buffalo Creek in Owsley County, Kentucky, which is owned by Leslie Resources, Inc.

(c) An alternative to purchase was discussed. The proponents declined, being interested only in the exchange. The alternative will not be considered further.

Estimated Dates for DEIS and FEIS

The DEIS is expected to be filed with the Environmental Protection Agency and to be available for public comment by July 2001. At that time, the Environmental Protection Agency will publish a notice of availability of the DEIS in the **Federal Register**. The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of DEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objectives that could be raised at the DEIS stage but that are not raised until after the completion of the Final Environmental Impact Statement (FEIS) may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritage, Inc. v. Harris*, 490 F. Supp. 1334 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the FEIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if the comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provision of the National Environmental Policy Act of 40 CFR 1503.3 in addressing these points.

After the comment period ends on the DEIS, the comments will be analyzed, considered, and responded to by the Forest Service in preparing the FEIS.

The FEIS is scheduled to be completed in September 2001. The responsible official will consider the comments, responses, environmental consequences discussed in the FEIS, and applicable laws, regulations, and policies in making a decision regarding this proposed action.

The responsible official will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to appeal in accordance with 36 CFR part 215.
