Total Annual Burden: 669,157 hours.

Needs and Uses: The Commission adopted rules to further the goals of 47 U.S.C. Section 226. Pursuant to Section 64.703(a), operator service providers (OSPs) are required to disclose, audibly and distinctly to the consumer, at no charge and before connecting any interstate call, how to obtain rate quotations, including any applicable surcharges. Section 64.709 codifies the requirements for OSPs to file informational tariffs with the Commission. Section 64.710 requires providers of interstate operator services of inmates at correctional institutions to identify themselves, audibly and distinctly, to the party to be billed, among other things. The disclosure rules will make it easier for callers using operator services provided at call aggregator phones, and prison-inmate phones, to obtain immediately the cost of the call, prior to the call being connected. The Commission has reviewed rates and charges contained in informational tariffs and instituted several formal as well as numerous informal investigations on receiving complaints from consumers, or on its own initiative, when OSP rates and related aggregator surcharges appeared to have been excessive.

The rules are intended to further Congress's goals of fostering competition in telecommunications markets and to ensure the privacy of customer information. Among other things, carriers are permitted to use CPNI, without customer approval, under certain conditions. Carriers must obtain express customer approval to use CPNI to market service outside the customer's existing service relationship. Carriers must provide a one-time notification of customers' CPNI rights prior to any solicitation for approval. Carriers must maintain such records for a period of at least one year. Carriers must implement a system by which the status of a customer's CPNI approval can be clearly established prior to the use of CPNI. Carriers must establish a supervisory review process regarding carrier compliance with the rules in 47 CFR Part 64 for outbound marketing situations. All carriers must obtain on an annual basis a certification signed by a current officer attesting that he or she has personal knowledge that the carrier is in compliance with the Commission's rules. LECs must disclose aggregate customer information to others upon request. Section 222(c)(2) requires carriers to provide a customer's CPNI to any person designated in the written authorization. Telecommunications common carriers must provide subscriber list information gathered in their capacity as providers of telephone exchange service to any person upon request for the purpose of publishing directories. Carriers are obligated to provide updated subscriber list information and notices of changes in subscriber list information to the extent those changes reflect customers decision to cease having a telephone number listed.
