SUPPLEMENTARY INFORMATION:

Waiver of Child Labor Provisions for Agricultural Employment of 10 and 11 Year Old Minors in Hand Harvesting of Short Season Crops—29 CFR Part 575

I. Background

Section 13(c)(4) of the Fair Labor Standards Act (FLSA), 29 U.S.C. 201 *et seq.*, authorizes the Secretary of Labor to grant a waiver of the child labor provisions of the FLSA for the agricultural employment of 10 and 11 year old minors in the hand harvesting of short season crops if specific requirements are met. The Act requires that employers who are granted such waivers keep on file a signed statement of the parent or person standing in the place of the parent of each 10 and 11 year old minor, consenting to their employment, along with a record of the name and address of the school in which the minor is enrolled.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-36]

CE Nuclear Power LLC; Hematite Fuel Operations; Notice of Consideration of Request for Consent to Transfer of Facility License and Conforming Amendment and Opportunity for Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of consideration of request for consent to transfer of facility license and conforming amendment and opportunity for hearing.

SUMMARY: The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of a letter of consent and an amendment pursuant to part 70 to Title 10 of the Code of Federal Regulations approving the transfer of Materials License SNM-33 held by CE

Nuclear Power LLC ("CENP"), a wholly-owned subsidiary of Westinghouse Electric Company LLC ("Westinghouse") as the owner and responsible licensee. The facility is authorized to use Special Nuclear Material (SNM) for research, development, and the fabrication of nuclear fuel pellets and fuel assemblies and operates in Hematite, Missouri. The transfer would be from CENP to its parent, Westinghouse.

FOR FURTHER INFORMATION CONTACT:

Mohammad W. Haque, Project Manager, Fuel Cycle Licensing Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone: (301) 415-6640, e-mail: mwh1@nrc.gov.

SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of a letter of consent and an amendment pursuant to part 70 to Title 10 of the Code of Federal Regulations approving the transfer of Materials License SNM-33 held by CE Nuclear Power LLC ("CENP"), a wholly-owned subsidiary of Westinghouse Electric Company LLC ("Westinghouse") as the owner and responsible licensee. The facility is authorized to use Special Nuclear Material (SNM) for research, development, and the fabrication of nuclear fuel pellets and fuel assemblies and operates in Hematite, Missouri. The transfer would be from CENP to its parent, Westinghouse.

The transfer is necessitated by the planned merger of CENP, including all of its assets and personnel, into its parent, Westinghouse, to be effective as of April 2, 2001. The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to CENP's application dated February 16, 2001, all Commission licensed activities affected by the transfer of the Materials License will be the same before and after the transfer. All personnel having control of licensed activities under the Materials License, as amended and transferred to Westinghouse, will be the same personnel who currently have responsibilities under the Materials License, as held by CENP.

The proposed license amendment would replace references to CENP in the license with references to Westinghouse and make other changes for administrative purposes to reflect the proposed transfer.

Pursuant to 10 CFR 70.36, no license granted under the regulations in Part 70

and no right to possess or utilize special nuclear material granted by any license issued pursuant to the regulations in Part 70 shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person unless the Commission shall give its prior consent in writing. The Commission will approve an application for the transfer of a license if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By April 11, 2001, any person whose interest may be affected by the Commission's action on the application may request a hearing and may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon: Mr. Robert S. Bell, Jr., Esq., Vice President, General Counsel and Secretary, CE Nuclear Power LLC; 2000 Day Hill Road; Windsor, CT 06095; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of
