SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 155, OMB Control No. 3235-0549, SEC File No. 270-492.

Rule 477, OMB Control No. 3235-0550, SEC File No. 270-493.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget for extension and approval.

Rule 155 under the Securities Act provides safe harbors for a registered offering following an abandoned private offering, or a private offering following an abandoned registered offering, without integrating the registered and private offering in either case. Rule 155 requires any prospectus filed as a part of a registration statement after a private offering to include disclosure regarding abandonment of the private offering. Similarly, the rule requires an issuer to provide each offeree in a private offering following an abandoned registered offering with: (1) Information concerning withdrawal of the

registration statement; (2) the fact that the private offering is unregistered; and (3) the legal implications of the offering's unregistered status. The likely respondents will be companies. It is estimated that 600 issuers will file Rule 155 submissions annually at an estimated 4 hours per response. Also, it is estimated that 50% of the 2,400 total annual burden hours (1,200 burden hours) would be prepared by the company. We estimate that the company's outside counsel would prepare the other 1,200 burden hours.

Rule 477 under the Securities Act sets forth procedures for withdrawing a registration statement or any amendment or exhibits thereto. The rule provides that if a registrant applies in anticipation of reliance on Rule 155's registered-to-private safe harbor, the registrant must state in the withdrawal application that the registrant plans to undertake a subsequent private offering in reliance on the rule. Without this statement, the Commission would not be able to monitor issuers' reliance on and compliance with Rule 155(c). The likely respondents will be companies. It is estimated that 300 issuers will file Rule 477 submissions annually at an estimated one-hour per response for a total annual burden of 300 hours.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

Dated: March 21, 2001.

[Release 34-44089; File No. 600-22]

Self-Regulatory Organizations; MBS Clearing Corporation; Notice of Filing and Order Approving a Request for an Extension of Temporary Registration as a Clearing Agency

March 21, 2001.

Notice is hereby given that on February 23, 2001, MBS Clearing Corporation ("MBSCC") filed with the Securities and Exchange Commission ("Commission") an application pursuant to Section 19(a) of the Securities Exchange Act of 1934 ("Act")¹ requesting that the Commission grant MBSCC full registration as a clearing agency or in the alternative extend MBSCC's temporary registration as a clearing agency until such time as the Commission is able to grant MBSCC permanent registration.² The Commission is publishing this notice and order to solicit comments from interested persons and to extend MBSCC's temporary registration as a clearing agency through September 30, 2001.

On February 2, 1987, pursuant to Sections 17A(b) and 19(a) of the Act³ and Rule 17Ab2-1 promulgated thereunder,⁴ the Commission granted MBSCC registration as a clearing agency on a temporary basis for a period of eighteen months.⁵ The Commission subsequently has extended MBSCC's registration through March 31, 2001.⁶

In the most recent extension of MBSCC's temporary registration, the Commission stated that it planned in the near future to seek comment on granting MBSCC permanent registration as a clearing agency. The extension of MBSCC's temporary registration will enable the Commission to do so within the next few months.

Interested persons are invited to submit written data, views, and

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-44090; File No. SR-CHX-01-06]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Chicago Stock Exchange, Incorporated, To Amend the Exchange's SuperMAX 2000 Price Improvement Program To Include Odd Lot Orders

March 21, 2001.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 19, 2001, the Chicago Stock Exchange, Incorporated ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the CHX rules governing its voluntary price improvement program. Specifically, the Exchange proposes to amend Article XX, Rule 37(h) to permit application of the Exchange's SuperMAX 2000 price improvement algorithm to odd lot orders, thereby increasing the opportunities for price improvement. The text of the proposed rule change is below. Additions are in italics.

Article XX

Regular Trading Sessions

Guaranteed Execution System and
Midwest Automated Execution System
Rule 37

* * * * *

(h) SuperMAX 2000

SuperMAX 2000 shall be a voluntary automatic execution program within the MAX System. SuperMAX 2000 shall be available for any security trading on the Exchange in decimal price increments. A specialist may choose to enable this voluntary program within the MAX System on a security-by-security basis.

(1) Pricing

(i) In the event that an order to buy or sell at least 100 shares is received in a security in which SuperMAX 2000 has been enabled, such order shall be executed at the ITS Best Offer or NBO (for a buy order) or the ITS Best Bid or NBB (for a sell order) if the spread between the ITS Best Bid and the ITS Best Offer (or NBB and NBO, for Nasdaq/NM issues) in such security at the time the order is received is less than \$.03.

(ii) In the event that an order to buy or sell 100 shares is received in a security in which SuperMAX 2000 has been enabled, and the spread between the ITS Best Bid and the ITS Best Offer (or NBB and NBO, for Nasdaq/NM issues) in such security at the time the order is received is \$.03 or greater, such order shall be executed (subject to the short sale rule) at a price at least \$.01 lower than the ITS Best Offer or NBO (for a buy order) or at least \$.01 higher than the ITS Best Bid or NBB (for a sell order).

(iii) In the event that an order to buy or sell more than 100 shares is received in a security in which SuperMAX 2000 has been enabled, such order shall be executed at the ITS Best Offer or NBO, or better (for a buy order) or the ITS Best Bid or NBB, or better (for a sell order)

as the specialist may designate and is approved by the Exchange.

(iv) *Odd Lot Market Orders.* In the event that a market order to buy or sell less than 100 shares (or a market order otherwise deemed an odd lot by the Exchange) is received in a security in which SuperMAX 2000 has been enabled, and the spread between the ITS Best Bid and the ITS Best Offer (or NBB and NBO, for Nasdaq/NM issues) in such security at the time the order is received is (A) less than \$.05, such order shall be executed at the ITS Best Offer or NBO (for a buy order) or the ITS Best Bid or NBB (for a sell order); or (B) \$.05 or greater, such order shall be executed at a price at least \$.01 lower than the ITS Best Offer or NBO (for a buy order) or at least \$.01 higher than the ITS Best Bid or NBB (for a sell order).

(2) Operating Time. SuperMAX 2000 will operate each day that the Exchange is open for trading from the commencement of the Primary Trading Session until the close of the Primary Trading Session; provided, however, that preopening orders shall not be eligible for SuperMAX 2000 price improvement. A specialist may enable or remove SuperMAX 2000 for a particular security only on one given day each month, as determined by the Exchange from time to time. Notwithstanding the previous sentence, during unusual market conditions, individual securities or all securities may be removed from SuperMAX 2000 with approval of two members of the Committee on Floor Procedure.

(3) Timing. Orders entered into SuperMAX 2000 shall be immediately executed upon completion of the foregoing price improvement algorithm without delay (i.e., in 0 seconds).

(4) Applicability to Odd Lots Generated by OLES. Although an order generated by the Odd-Lot Execution Service ("OLES") is a professional order (because it is deemed to be for the account of a broker-dealer), it is nonetheless eligible for SuperMAX 2000 execution if (i) the order is for 100 to 199 shares and (ii) the order is an OLES passively-driven system-generated market order (and not an actively managed order).

(5) Out of Range. Notwithstanding anything herein to the contrary, SuperMAX 2000 will not automatically execute an order if such execution would result in an out of range execution.

(6) Other. Any eligible order in a security for which SuperMAX 2000 has been enabled which is manually presented at the post by a floor broker must also be guaranteed an execution by the specialist pursuant to the pricing
