Burden Hours: 13,500.

Abstract: The U.S. Departments of Education, Health and Human Services, Justice, and Labor (Agencies) are collaborating on a Safe Schools-Healthy Students Initiative to provide students, schools, and communities with enhanced comprehensive educational, mental health, social service, law enforcement, and, as appropriate, juvenile justice system services that promote healthy childhood development and prevent violence and alcohol and other drug abuse. These services and activities target both youth's development of the social skills and emotional resilience necessary to avoid drug use and violent behavior and the establishment of school environments that are safe, disciplined, and drug-free. The Initiative also supports youth development activities that create opportunities for students to pursue postsecondary education, apprenticeships, or jobs that help them prepare for adulthood.

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 7, 2001.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Lauren Wittenberg, Acting Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or should be electronically mailed to the internet address Lauren_Wittenberg@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

DEPARTMENT OF ENERGY

National Nuclear Security Administration, Record of Decision for the Final Supplemental Environmental Impact Statement for the National Ignition Facility

AGENCY: Department of Energy, National Nuclear Security Administration.

ACTION: Record of Decision.

SUMMARY: The National Nuclear Security Administration (NNSA), a separate agency within the Department of Energy (DOE), is issuing this Record of Decision (ROD) for the National Ignition Facility (NIF), a key component of DOE's science-based stewardship of the nation's nuclear weapons stockpile. This ROD is based, in part, on the information and analysis contained in the National Ignition Facility Supplemental Environmental Impact Statement (SEIS) to the Stockpile Stewardship and Management Programmatic Environmental Impact Statement (SSM PEIS) (DOE/EIS-0236-S1). Other factors that influenced the decision include mission responsibilities of the Department.

DOE's decision is to continue to construct and operate the NIF as analyzed in the SSM PEIS and the SEIS. This decision constitutes the no action alternative of continuing ongoing activities (DOE's Preferred Alternative) as described in the SEIS. As a result of this decision, DOE will make no changes in the design of NIF, will undertake no deviations in construction techniques, and will impose no operational changes in the NIF.

FOR FURTHER INFORMATION CONTACT: For further information on the SEIS or this ROD, please contact Scott L. Samuelson, NIF Field Manager, U. S. Department of Energy, 7000 East Avenue, Livermore, CA 94550-9234, phone (925) 423-0593.

For information on NNSA's National Environmental Policy Act (NEPA) process, contact Henry Garson, NEPA Compliance Officer for NNSA's Defense Programs, (301) 903-0470. For information on DOE's NEPA process, please contact: Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance, EH-42, U. S. Department of Energy, 1000 Independence Avenue SW., Washington DC 20585, phone (202) 586-4600 or leave a message at 1-800-472-2756.

SUPPLEMENTARY INFORMATION:

Background. The Lawrence Livermore National Laboratory (LLNL) was established in 1952 as a multi-disciplinary research and development center, and is operated by the University of California for the Department of Energy. LLNL is located in Livermore, California, about 40 miles southeast of San Francisco. LLNL consists of two portions, the main site in Livermore and the 300 Area near Tracy, California. The NIF is currently being constructed at the LLNL main site and is over 95% complete. The NIF is a part of the DOE's development of science-based, rather than underground nuclear test-based, stewardship of the nuclear weapons stockpile. In NIF, nuclear fusion of very small amounts of hydrogen isotopes is expected to be achieved using the energy inherent in laser light. The environmental consequences of construction and operation of NIF were addressed in detail in Appendix I of the SSM PEIS. The ROD for the SSM PEIS was published in the **Federal Register** on December 26, 1996 (61 FR 68014). In the ROD, DOE announced a decision to proceed with construction and operation of NIF at LLNL. Ground-breaking for NIF occurred on May 29, 1997.

On September 3, 1997, excavation activities at the NIF site uncovered capacitors containing polychlorinated biphenyls (PCB) oil and other items
