

Transmission Company. That two-year authorization expired on April 6, 2001.

On March 23, 2001, AEPSC, on behalf of nine of its public utility affiliates, filed an application with FE for renewal of the export authority contained in Order No. EA-200 for a term of five years and added four more of its public utility affiliates to the list of companies for which export authority is requested. The public utility affiliates for which AEPSC has applied for export authority include: Appalachian Power Company; Columbus Southern Power Company; Indiana Michigan Power Company; Kentucky Power Company; Ohio Power Company; Central Power & Light Company; Public Service Company of Oklahoma; Southwestern Electric Power Company; and West Texas Utilities Company (collectively, the "AEP Operating Companies" or the "Applicants").

The electric energy which the applicants propose to export to Canada would come from either the surplus generation of the applicants or from purchases on the wholesale market.

Procedural Matters

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order No. EA-200. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-200 proceeding.
