FOR FURTHER INFORMATION CONTACT: Comments regarding the application process, instructions, or ranking criteria may be submitted to Dr. Kenneth G.

Ross, Special Assistant to the Director, Office of Indian Education Programs, 201 Third St. NW, Suite 510, Albuquerque, New Mexico 87103, (505) 346-6544, Fax (505)346-6553, or to applicable Education Line Officers.

SUPPLEMENTARY INFORMATION: The meeting is a follow-up to the replacement school application and priority ranking process conducted by the BIA in 1999. The session will provide an opportunity for Indian tribes, school boards, parents, Indian organizations, and other interested parties to comment on issues raised during the previous ranking process and possible changes to be made in the 2001 ranking process. The proposed ranking of replacement school applications for future construction supports the Administration's commitment to improve educational teaching and learning environments for Native American children by replacing deteriorated school structures with quality educational facilities.

The Bureau's application evaluation criteria have been developed to determine the extent of unfavorable conditions which may exist at an educational facility. The criteria are intended to provide information regarding: structural problems; deteriorated infrastructure and facility conditions; building and building system code violations; unmet health, safety, and handicapped requirements; and the unmet spatial and educational program needs of Bureau-funded schools. Applications for school projects will be evaluated and rated against the published criteria. The highest ranking projects will be identified for future budget requests as specified in the Bureau's annually updated 5-Year Plan for Capital Asset Management.

25 U.S.C. 2005(c) requires the Bureau to prepare and submit a list of proposed projects, ranked in priority order, when any budget request for school construction is presented. The Bureau uses the priority list to determine the order in which Congressional appropriations are requested to fund educational facilities replacement construction projects. This ensures that scarce Federal resources will be used to correct the most severe deficiencies at Bureau-funded educational facilities.

The Bureau, by individual letter, has notified the Tribes and Tribal school boards regarding the scheduled consultation meeting. In addition, notice of the meeting has been announced and distributed nationwide in the Bureau's facilities management newsletter. The meeting supports administrative policy on tribal
