#### SUPPLEMENTARY INFORMATION:

##### Regulatory Information

On December 26, 2000, we published a notice of proposed rulemaking (NPRM) entitled Safety Zone: Macy's July 4th Fireworks, East River, NY in the **Federal Register** (65 FR 81471). We received one letter commenting on the proposed rule. No public hearing was requested, and none was held.

##### Background and Purpose

The Coast Guard is establishing a permanent safety zone for the annual Macy's July 4th fireworks display in the East River. The safety zone encompasses all waters of the East River east of a line drawn from the Fireboat Station Pier, Battery Park City, in approximate position 40°42'15.4" N 074°01'06.8" W (NAD 1983) to Governors Island Light (2) (LLNR 35010), in approximate position 40°41'34.4" N 074°01'10.9" W (NAD 1983); north of a line drawn from Governors Island, in approximate position 40°41'25.3" N 074°00'42.5" W (NAD 1983) to the southwest corner of Pier 9A, Brooklyn; south of a line drawn from East 47th Street, Manhattan through the southern point of Roosevelt Island to 46 Road, Brooklyn, and all waters of Newtown Creek west of the Pulaski Bascule Bridge.

Vessels equal to or greater than 20 meters (65.6 feet) in length, carrying persons for the purpose of viewing the fireworks, may take position in an area inside the safety zone, at least 200 yards off the bulkhead on the west bank and just off the pierhead faces on the east bank of the East River between the Williamsburg Bridge and North 9th Street, Brooklyn. This area is bound by the following points: 40°42'45.5" N 073°58'07.4" W; thence to 40°42'50.4" N 073°58'23.2" W; thence to 40°43'23.1" N 073°58'12.7" W; thence to 40°43'21.5" N 073°57'45.7" W; (NAD 1983) thence back to the point of beginning. All vessels must be in this location by 6:30 p.m. (e.s.t.) the day of the event.

Once in position within the zone, all vessels must remain in position until released by the Captain of the Port, New York. On-scene-patrol personnel will monitor the number of designated vessels taking position in the viewing area of the zone. If it becomes apparent that any additional spectator vessels in the viewing area will create a safety hazard, the patrol commander may prevent additional vessels from entering it. After the event has concluded and the fireworks barges have safely relocated outside of the main channel, vessels will be allowed to depart the
