SUPPLEMENTARY INFORMATION:**Background**

On March 1, 2001, the Department published a notice of initiation in this changed circumstances review (see *Notice of Initiation of Changed Circumstances Antidumping Duty Administrative Review*, 66 FR 12925). On March 20, 2001, the Department conducted a verification of Hyundai Hysco at its headquarters in Seoul. See *Memorandum to the File: Verification of Hyundai Hysco in the Changed Circumstance Review of Oil Country Tubular Goods and Circular Welded Non-Alloy Steel Pipe from South Korea*, dated April 13, 2001. Verification results are outlined in the public version of the verification report on file in Room B-099 of the main Commerce building.

Scope of the Review

The products covered by this order are oil country tubular goods ("OCTG"), hollow steel products of circular cross-section, including only oil well casing and tubing, of iron (other than cast iron) or steel (both carbon and alloy), whether seamless or welded, whether or not conforming to American Petroleum Institute ("API") or non-API specifications, whether finished or unfinished (including green tubes and limited service OCTG products). This scope does not cover casing or tubing pipe containing 10.5 percent or more of chromium, or drill pipe. The products subject to this order are currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under item numbers:

7304.29.10.10, 7304.29.10.20, 7304.29.10.30, 7304.29.10.40, 7304.29.10.50, 7304.29.10.60, 7304.29.10.80, 7304.29.20.10, 7304.29.20.20, 7304.29.20.30,

Although the HTSUS item numbers are provided for convenience and Customs purposes, the written description remains dispositive of the scope of this review.

Preliminary Results

In making successor-in-interest determinations, the Department examines several factors including, but not limited to, changes in: (1) Management; (2) production facilities; (3) supplier relationships; and (4) customer base. See e.g., *Brass Sheet and Strip from Canada; Final Results of Antidumping Duty Administrative Review*, 57 FR 20460, 20461 (May 13, 1992). While no single factor, or combination of factors, will necessarily prove dispositive, the Department will generally consider the new company to be the successor to its predecessor company if the resulting operations are essentially the same as the predecessor company. See e.g., *Id.* and *Industrial Phosphoric Acid from Israel; Final Results of Changed Circumstances Review*, 59 FR 6944, 6945 (February 14, 1994). Thus, if the evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as its predecessor, the Department will assign the new company the cash-deposit rate of its predecessor.

Based on the information submitted by Hyundai Hysco during the initiation stages of this changed circumstances review and the information examined during verification, we preliminarily determine that Hyundai Hysco is the successor-in-interest to HDP. We find the company's organizational structure, senior management, production facilities, supplier relationships, and customers have remained essentially unchanged. Furthermore, Hyundai Hysco has provided sufficient internal

and public documentation of the name change. Based on all the evidence reviewed, we find that Hyundai Hysco operates as the same business entity as HDP. Thus, we preliminarily determine that Hyundai Hysco should be excluded from the antidumping duty order as was its predecessor company, HDP.
