NATIONAL CRIME PREVENTION AND PRIVACY COMPACT COUNCIL

Notice of Approval of Florida Proposal

AGENCY: National Crime Prevention and Privacy Compact Council.

ACTION: Notice of approval of Florida proposal.

SUMMARY: Pursuant to 28 CFR chapter IX, the Compact Council established by the National Crime Prevention and Privacy Compact has approved a proposal from the State of Florida authorizing access to the Interstate Identification Index (III) system on a delayed fingerprint submission basis for conducting criminal history record checks in connection with the placement of children with temporary custodians on an emergency basis. In approving the proposal, the Compact Council took note of the recommendation of the Criminal Justice Information Services Advisory Policy Board to allow governmental agencies authorized by an approved state statute to conduct "preliminary III name checks" for all persons occupying the residence at the time when children are placed in such residences on an emergency basis.

The approved proposal authorizes III access on a delayed fingerprint submission basis by the Florida Department of Children and Family Services which is authorized to make emergency placements of children by a Florida statute which has been approved by the U.S. Attorney General pursuant to Pub. L. 92-544. Pursuant to the approved proposal, fingerprints are to be submitted as a follow-up to the III name-based check within five working days from such time the name checks are conducted. For the purposes of the proposal, working day is defined as a day when a governmental agency is open for business.

Pursuant to Section 901.3 of 28 CFR, chapter IX, other States may apply to the FBI's Compact Officer for authority to grant delayed fingerprint submission access to governmental agencies authorized by approved state statutes to make emergency child placements. Such application must explain why the submission of fingerprints contemporaneously with search

requests is not feasible and must justify the length of the requested delay in the submission of such fingerprints.

Proposals should be sent to the FBI's Compact Officer at Criminal Justice Information Services, Attn: FBI Compact Officer, 1000 Custer Hollow Road, Clarksburg, WV 26306.

Dated: May 3, 2001.

Wilbur Rehmman,

Chairman, Compact Council.

NUCLEAR REGULATORY COMMISSION

Meeting Concerning the Revision of the Oversight Program for Nuclear Fuel Cycle Facilities

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of public meeting.

SUMMARY: NRC will hold a public meeting in Lynchburg, VA to provide the local public, facility employees, citizens' groups, and local officials with information about, and an opportunity to provide views on, how the NRC plans to revise and improve its oversight program for commercial nuclear fuel cycle facilities regulated under 10 CFR parts 40, 70, and 76. The facilities include gaseous diffusion plants, high- and low-enriched uranium fuel fabrication facilities, and a uranium hexafluoride (UF₆) production plant. These facilities possess large quantities of materials that are potentially hazardous (radioactive, toxic, or flammable) to workers, the public, or the environment. Also, some of the facilities possess information and material important to national security. Two of these regulated facilities, BWX Technologies and Framatome, are located in Lynchburg.

The goal of this revision project is to have an oversight program that: (1) Provides earlier and more objective indications of facility performance in the areas of safety and national security, (2) increases stakeholder confidence in the NRC, and (3) increases regulatory effectiveness, efficiency, and realism. To this end, the NRC is striving to make the oversight program more risk-informed and performance-based. The oversight revision project is described in SECY-99-188, "Evaluation and Proposed Revision of the Nuclear Fuel Cycle Facility Safety Inspection Program," and in SECY-00-0222, "Status of Nuclear Fuel Cycle Facility Oversight Program Revision." SECY-99-188 and SECY-

00-0222, as well as other background information, are available in the Public Document Room and on the NRC Web Page at <http://www.nrc.gov>.

PURPOSE OF MEETING: To obtain stakeholder views for improving the NRC oversight program for ensuring fuel cycle licensees and certificate holders maintain protection of worker and public health and safety, protection of the environment, and safeguards for special nuclear material and classified matter in the interest of national security. The public meeting will focus on the revisions that are being made to the program, and on how interested parties can provide input to the change process.

DATE AND LOCATION: Members of the public, industry, and other stakeholders are invited to attend and participate in the meeting, which is scheduled for 9:30 to 10:00 a.m. on Thursday, May 31, 2001. The meeting will be held at the Lynchburg Technology Center, which is located at 1574 Mount Athos Road, Lynchburg, VA 24501.
