Public Participation and Identification of Environmental Issues. For other wind projects, noise, visual, and cultural resources effects, and effects on sensitive plant and animal species including migratory birds, have been identified as potential environmental issues. BPA has established a 30-day scoping period during which affected tribes, landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited to comment on the scope of the EIS. Scoping will help BPA identify the range of environmental issues that should be addressed in the EIS. When completed, the Draft EIS will be circulated for review and comment, and BPA will hold at least one public comment meeting for the Draft EIS. BPA will consider and respond in the Final EIS to comments received on the Draft EIS. The Final EIS is expected to be published in early 2002. BPA's subsequent decision will be documented in a Record of Decision. The EIS will satisfy the requirements of the National Environmental Policy Act.

Issued in Portland, Oregon, on June 5, 2001.

ANR Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

June 6, 2001.

Take notice that on May 31, 2001, ANR Pipeline Company (ANR) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets proposed to become effective June 1, 2001:

Forty-seventh Revised Sheet No. 8
Forty-seventh Revised Sheet No. 9
Forty-sixth Revised Sheet No. 13
Fifty-seventh Revised Sheet No. 18

ANR states that the above-referenced tariff sheets are being filed to implement recovery of approximately \$3.0 million of above-market costs that are associated with its obligations to Dakota Gasification Company (Dakota). ANR proposes a reservation surcharged applicable to its Part 284 firm

transportation customers to collect ninety percent (90%) of the Dakota costs, and an adjustment to the maximum base tariff rates of Rate Schedule ITS and overrun rates applicable to Rate Schedule FTS-2, so as to recover the remaining ten percent (10%). ANR advises that this filing also includes the annual restatement of the Eligible MDQ used to design the reservation surcharge. ANR also advises that the proposed changes would decrease current quarterly Above-Market Dakota Cost recoveries from \$4,003,607 to \$2,995,512.
