BILLING CODE 4184-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; Comment Request; Web-Survey of the State-of- the-Science (SOTS) Web Site

SUMMARY: In compliance with the
requirement of Section 3506(c)(2)(A) of
the Paperwork Reduction Act of 1995,
for opportunity for public comment on
proposed data collection projects, the
National Cancer Institute (NCI), the
National Institutes of Health (NIH) will
publish periodic summaries of proposed
projects to be submitted to the Office of
Management Budget (OMB) for review
and approval.

Proposed Collection

Title: Web-Survey of the State of the
Science Web Site.

Type of Information Collection
Request: New.

Need and Use of Information

Collection: The NCI seeks to evaluate its
State-of-the-Science (SOTS) meetings
project that offers audio-visual
presentation of SOTS meetings via the
Internet. The SOTS disseminates, with
expediency and immediacy, the most
recent oncology research results to a
potentially vast audience of researchers.
The proposed data collection will
provide feedback to NCI on the value of
the Web site to those who NCI deem as
the Web site's target population (i.e.,
clinical oncology researchers unable to
attend SOTS meetings in person
because of cost or time limitations). The
first tier of respondents will consist of
researchers who have attended any one
of the three most recent State of the
Science meetings. The tier one survey
participants will be asked to provide the
names, emails, and any other contact
information for five colleagues who are
clinical research oncologists. These
oncologists will be asked only once to
provide the names and contact
information for colleagues. The second
tier of respondents will consist of the
clinical oncology researchers nominated
by the first tier respondents. It is the
second tier respondents who will be
asked to go to the Web site and
complete the Web survey. They are
asked to do this only once. Other tier
two respondents will be oncology
fellows who current and full contact
information is available in a national
register of oncology fellows. Reports
generated by the study will allow NCI
to determine the success of the SOTS
Web site (in terms of clarity of content,
ease of navigation, and usefulness of
information), and indirectly, the
potential wider use and applications of
Internet-based programs to improve the
overall cancer clinical trials systems at
NCI.

Frequency of Response: One time.

Affected Public: Individuals,
researchers.

Type of respondents	Estimated No. re- spondents	Estimated No. re- sponses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Tier One Clinical Oncology Researchers	220	1	0.0833	19
Tier Two Clinical Oncology Researchers	400	1	0.25	100
Total				119

There are no Capital Costs, Operating
Costs and/or Maintenance Costs to
reports.

Request for Comments

Written comments and/or suggestions
from the public and affected agencies
should address one or more of the
following points: (1) Whether the

proposed collection of information is
necessary for the proper performance of
the function of the agency, including
whether the information will have
practical utility; (2) the accuracy of the

agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments due date

Comments regarding this information collection are best assured of having their full effect if received on or before August 13, 2001.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Bryce Reeve, Ph.D., National Cancer Institute, Executive Plaza North, Room 4026, 6130 Executive Boulevard, Rockville, MD, 20852, non-toll free telephone (301) 594-6574, or email: reeveb@mail.nih.gov, or br117c@nih.gov.

Dated: June 5, 2001.

Reesa Nichols,

OMB Clearance Liaison.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; Comment Request; Agricultural Health Study—A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection

Title: Agricultural Health Study—A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture.

Type of Information Collection Request: Revision (OMB) 0925-0406, expiration 11/31/01).

Need and Use of Information Collection: The Agricultural Health Study is in its third year of follow-up data collection on a prospective cohort of 89,189 farmers, their spouses, and commercial applicators of pesticides from Iowa and North Carolina. Follow-up is not yet complete; an additional two years of followup is being requested.

Frequency of Response: Single time reporting.

Affected Public: Individuals or households, Farms.

Type of Respondents: Private pesticide applicators and their spouses. The annual reporting burden is as follows:

Estimated Number of Respondents: 21,999.

Estimated Number of Responses per Respondent: 1.0.

Average Burden Hours Per Response: 1.66.

Estimated Total Annual Burden Hours Requested: 13,156.

The annualized cost to respondents is estimated at: \$131,544. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Request for Comments

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments Due Date

Comments regarding this information collection are best assured of having their full effect if received on or before August 13, 2001.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Michael C.R. Alavanja, Dr. P.H., Division of Epidemiology and Genetics, National Cancer Institute, Executive Plaza South,

Suite 8000, 6120 Executive Boulevard, Rockville, MD 20852, or call non-toll free (301) 435-4720, or E-mail your request, including your address to: alavanjam@mail.nih.gov.

Dated: June 5, 2001.

Reesa Nichols,

NCI Project Clearance Liaison.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Heart, Lung, and Blood Institute; Proposed Collection; Comment Request The Framingham Study

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Heart, Lung, and Blood Institute (NHLBI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval the information collection listed below. This proposed information collection was previously published in the **Federal Register** on May 2, 2001, pages 21988-21989, and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection

Title: The Framingham Study. **Type of Information Collection Request:** Revision of a currently approved collection (OMB NO. 0925-0216). **Need and Use of Information Collection:** The Framingham Study will conduct examinations and morbidity and mortality follow-up in original, offspring, and third generation participants for the purpose of studying the determinants of cardiovascular disease. **Frequency of Response:** The participants will be contacted annually. **Affected Public:** Individuals or households; Businesses or other for profit; Small Businesses or organizations.

Type of Respondents: Adult men and women; doctors and staff of hospitals and nursing homes. The annual reporting burden is as follows:
