NUCLEAR REGULATORY COMMISSION

[Docket No. 72-9]

Notice of Issuance of Amendment to Materials License SNM-2504; Department of Energy; Fort St. Vrain Independent Spent Fuel Storage Installation

The Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 9 to Materials License No. SNM-2504 held by the U.S. Department of Energy (DOE) for the receipt, possession, storage, and transfer of spent fuel at the Fort St. Vrain (FSV) independent spent fuel storage installation (ISFSI), located in Weld

County, Colorado. The amendment is effective as of the date of issuance.

By application dated August 30, 2000, as supplemented May 11 and 24, 2001, DOE requested an amendment to its ISFSI license to include a Safeguards Information Protection Plan per 10 CFR 73.21(h), to be added as an Appendix to the existing Physical Protection Plan.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that, pursuant to 10 CFR 51.22(c)(12), an environmental assessment need not be prepared in connection with issuance of the amendment.

The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/NRC/ADAMS/index.html>. NUCLEAR REGULATORY COMMISSION

[Docket No. 72-20]

Notice of Issuance of Amendment to Materials License SNM-2508, Department of Energy, TMI-2 Independent Spent Fuel Storage Installation

The Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 2 to Materials License No. SNM-2508 held by the U.S. Department of Energy (DOE) for the receipt, possession, storage and transfer of spent fuel in an independent spent fuel storage installation (ISFSI) located at the Idaho National Engineering and Environmental Laboratory (INEEL), within the Idaho Nuclear Technology and Engineering Center (INTEC) site in Scoville, Idaho. The amendment is effective as of the date of issuance.

By application dated August 30, 2000, as supplemented May 11 and 24, 2001, DOE requested an amendment to its ISFSI license to include a Safeguards Information Protection Plan per 10 CFR 73.21(h), to be added as an Appendix to the existing Physical Protection Plan.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that, pursuant to 10 CFR 51.22(c)(12), an environmental assessment need not be prepared in connection with issuance of the amendment.

NUCLEAR REGULATORY COMMISSION

Invitation to Join an Agencywide Document Access and Management System (ADAMS) User Group

AGENCY: Nuclear Regulatory
Commission.

ACTION: Invitation to join an ADAMS User Group.

SUMMARY: The Nuclear Regulatory Commission (NRC) is asking interested members of the public who use the Agencywide Document Access and Management System (ADAMS) to join an ADAMS User Group. In addition to learning about new releases and upgrades of the ADAMS software, the user group will serve as a forum for two-way communication with NRC staff concerning ADAMS experiences, suggestions, and comments on making ADAMS more accessible and easier to use. Although a schedule has not been set for future meetings, the user group is expected to meet approximately four times a year. The user group will be formed at a meeting at the NRC headquarters Wednesday, July 18, 2001 from 1 p.m. to 3 p.m..

EFFECTIVE DATE: July 18, 2001.

FOR FURTHER INFORMATION CONTACT: Thomas E. Smith, Acting Chief, Public Document Room, Office of the Chief Information Officer, Nuclear Regulatory Commission, Washington, DC 20555, 301-415-7204, or toll-free 1-800-368-5642 or, 1-800-397-4209 (8:30 a.m.-4:15 p.m.).

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission plans to start an ADAMS User Group as a forum for ADAMS users. NRC staff will inform the user group about new ADAMS releases and future upgrades, and anticipates the user group will give staff feedback and suggest ways of making ADAMS more accessible and usable. For example, the user group could provide input on such issues as the NRC plans to develop a Web-based version of ADAMS as well as the matters related to the Legacy Library.

The July 18, 2001 formative meeting of the ADAMS User Group will be held at NRC headquarters in Rockville, MD, to survey the needs of the members, discuss issues and potential resolutions, and set a schedule for future meetings. Since many people who might like to participate cannot come to Rockville to attend the meeting, the NRC is making arrangements for interested parties to submit questions in advance as well as obtain information about the proceedings via email. The NRC will also have a toll-free telephone bridge so interested persons can dial into the meetings. The telephone bridge will accommodate 20 to 30 parties on a first-come, first-serve basis. Participation instructions will be sent to persons who respond to this announcement.

CONTACT: If you are interested in joining this user group, please contact
