SUPPLEMENTARY INFORMATION:

Description

The energy information collection submitted to OMB for review contains:

1. Collection of Information: FERC-525 "Financial Audits."

2. Sponsor: Federal Energy Regulatory Commission.

3. Control No.: OMB No. 1902-0092. The Commission is now requesting that OMB approve a three-year extension of the current expiration date, with no change to the existing collection. There is a decrease in the reporting burden due to the Commission's shift in emphasis from periodic audits that ensure companies' financial records conform to FERC's accounting and reporting requirements to audits that assess and evaluate the regulatory implication of industry practices and standards. These are mandatory information collection requirements.

4. Necessity of Collection of Information: Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the provisions of the Federal Power Act (EPA), the Natural Gas Act (NGA) and the Interstate Commerce Act (ICA). These statutes provide the Commission with the authority and responsibility for ensuring compliance by jurisdictional companies with the Acts' requirements. The information gathered under Commission identifier FERC-525 is obtained during financial/compliance audits of jurisdictional companies forming the basis of the audit staff's opinion regarding (1) the reliability of financial data filed with the FERC by companies, (2) the extent of conformance by the companies with the Uniform System of Accounts and other regulations of the FERC, and (3) compliance with the FERC's regulation for open access transportation of natural gas and electric energy including standards of conduct and electronic bulletin board postings of transportation/transmission availability and pricing.

5. Respondent Description: The respondent universe currently comprises on average, 50 companies subject to a Commission audit annually.

6. Estimated Burden: 5,000 total burden hours, 50 respondents, 1 response annually, 100 hours per response (average).

7. Estimated Cost Burden to Respondents: 5,000 hours ÷ 2,080 hours per year × \$117,041 per year = \$281,349 total costs and average cost per respondent = \$5,627.

Authority: Sec. 4(b), 208, 301(b), 302, 307 and 308 of the Federal Power Act, U.S.C. 792-828g; sec. 6, 8(b), 9 and 10 of the Natural

Gas Act, 15 U.S.C. 717-717w; and sec. 19 and 20 of the Interstate Commerce Act, 49 U.S.C. 19-20.

David P. Boergers,
Secretary.

SUPPLEMENTARY INFORMATION:*Description*

The energy information collection submitted to OMB for review contains:

1. *Collection of Information:* FERC-546 "Certificated Rate Filings: Gas Pipeline Rates".

2. *Sponsor:* Federal Energy Regulatory Commission.

3. *Control No.:* 1902-0155. The Commission is requesting reinstatement, without change, of the previously approved data collection for which approval expired January 31, 2001, and a three-year approval of the collection of data. This is a mandatory information collection requirement.

4. *Necessity of Collection of Information:* Submission of the information is necessary to enable the Commission to implement the statutory provisions of Title IV of the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301-3432, Pub. L. 95-621 and sections 4, 5, and 16, of the Natural Gas Act (NGA) (15 U.S.C. 717-717o, Pub. L. 75-688). These statutory provisions require natural gas pipeline companies to obtain Commission authorization for all rates and charges made, demanded, or in connection with the transportation or sale of natural gas in interstate commerce. The Commission is authorized to investigate the rates charged by natural gas pipeline companies subject to its investigation. The data filed in certificated rate filings are used to implement new or revised service proposals for the transportation or sale of natural gas and for compliance with subsequent Commission orders. The distinction between FERC-546 and other rate/tariff data collections is that data collected under FERC-546 involve initial service and tariff revisions due to changes in service rather than changes in existing rates. The Commission implements these filings requirements in the Code of Federal Regulations (CFR) under 18 CFR 154.4; 154.7; 154.202; 154.204-.209; 154.602-.603.

5. *Respondent Description:* The respondent universe currently comprises approximately 77 natural gas pipeline companies.

6. *Estimated Burden:* 12,320 hours, 77 respondents, 308 responses, 40 hours per response. This estimate is a decrease from OMB's previous inventory. The decrease is an adjustment and reflects a reduction in the average number of annual filings from 100 to 77.

Authority: Sect. 4, 5 and 16 of the Natural Gas Act (15 U.S.C. 717-717w) and sect. 403
