

two companies were false. One of the addresses was a used car lot. Interviews with the owner of the car lot revealed that Mr. Awadelkariem would meet with the previously mentioned individual from California at the car lot to consummate business deals for List I chemicals. Shortly after this interview, Mr. Awadelkariem called a DEA investigator and stated that he had received a call from the individual from California, who stated to Mr. Awadelkariem that he was upset with DEA's inquiries, and further that he already had two List I chemical shipments seized by DEA in the past.

In November 1997, Mr. Awadelkariem contacted DEA regarding an alleged suspicious order by an unknown female from California, but the deal was never consummated. Also in November 1997, Mr. Awadelkariem assisted DEA in the seizure of 100 cases of a List I chemical that were eventually forfeited to the United States.

The Administrator further finds that from January 1, 1998, to July 31, 1998, Aseel purchased and distributed over 164,012 bottles of List I chemicals, as determined from subpoenaed documents. Over 100,800 bottles of List I chemicals were shipped by Aseel to a company that had neither a pending nor an approved DEA registration.

Regarding factor five, other factors relevant to and consistent with the public safety, the Administrator finds that, when confronted with his earlier statements that he would stop doing business in List I chemicals, Mr. Awadelkariem stated the he meant "at the time, he was not going to deal in these products because he had no customers for them." The Administrator finds this lack of candor, especially taken together with Aseel's demonstrated cavalier disregard of law and regulations concerning registration and distribution of List I chemicals, makes questionable Aseel's commitment to the DEA regulatory requirements designed to protect the public from diversion of controlled substances and listed chemicals. See Terrence E. Murphy, 61 FR 2841 (DEA 1996).

Therefore, for the above-stated reasons, the Administrator concludes that it would be inconsistent with the public interest to grant the application of Aseel. The applicant has failed to demonstrate that it has effective controls against the diversion of listed chemicals. Additionally, as described above, the evidence indicates that Aseel has violated applicable law regarding the distribution of List I chemicals on several occasions by distributing List I chemicals while not registered with DEA, and by distributing List I

chemicals to companies who also were not registered with DEA. Aseel's lack of effective controls against diversion and its lack of commitment to comply with the laws and regulations designed to prevent diversion, exemplified by its failure to exercise discretion in distributing List I chemicals when it knew or should have known such chemicals were being diverted into other than legitimate channels, present a grave risk of future diversion.

Accordingly, the Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him by 21 U.S.C. 823 and 28 CFR 0.100(b) and 0.104, hereby orders that the application for a DEA Certificate of Registration submitted by Aseel be denied. This order is effective August 6, 2001.

Dated: June 20, 2001.

Dannie R. Marshall,
Administrator.

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-37,239 and NAFTA-3642]

DeZurik Corporation, McMinnville, Tennessee; Notice of Revised Determination on Remand

The United States Court of International Trade (USCIT) granted the Secretary of Labor's motion for voluntary remand for further investigation of the negative determination in *Former Employees of DeZurik Corporation v. U.S. Secretary of Labor* (Court No. 00-07-00319).

On March 30, 2000, the Department issued negative determinations regarding Trade Adjustment Assistance (TAA) and North American Free Trade Agreement-Transitional Adjustment Assistance, applicable to workers producing industrial valves at DeZurik Corporation, McMinnville, Tennessee. The notices were published in the **Federal Register** on April 21, 2000; the TAA petition TA-W-37,239 (65 FR

21473) and the NAFTA-TAA petition NAFTA-3642 (65 FR 21475).

On April 15, 2000, the International Association of Machinists (IAM), Local 1941, requested administrative reconsideration of the Department's denial of TA-W-37,239 and NAFTA-3642, which also resulted in affirmation of the initial negative decision. The determination was issued on June 5, 2000, and published in the **Federal Register** on June 15, 2000 (65 FR 32275).

On remand, the Department obtained new information regarding the production of components produced at the McMinnville, Tennessee plant, which were used in the production of the industrial valves sold by DeZurik. Investigation findings on remand show that the company relied on imports of some of the components formerly produced at the McMinnville, Tennessee plant. Other investigation findings on remand revealed that the subject firm has shifted a portion of the production of valves at the McMinnville, Tennessee plant to Canada.

Conclusion

After careful review of the additional facts obtained on remand, I conclude that there were increased imports of articles like or directly competitive with those produced by the subject firm and that there was a shift in production to Canada. In accordance with the provisions of the Trade Act, I make the following certification:

"All workers of DeZurik Corporation, McMinnville, Tennessee, who became totally or partially separated from employment on or after December 6, 1998, through two years from the issuance of this revised determination, are eligible to apply for adjustment assistance under Section 223 and NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed at Washington, D.C. this 13th day of June 2001.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of June, 2001.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated.
