SUPPLEMENTARY INFORMATION:**I. Abstract**

The purpose of the Technology Opportunities Program (TOP), formerly the Telecommunications and Information Infrastructure Assistance Program (TIAP), is to promote the widespread and efficient use of advanced telecommunications services in the public and non-profit sectors to serve America's communities.

The program has the following objectives:

- To promote the widespread availability and use of digital network technologies;
- To increase the awareness in public and non-profit sectors of digital networking technologies and their benefits;
- To stimulate public and non-profit sector organizations to examine potential benefits of, and plan for, investments in digital network technologies;
- To provide a wide variety of model digital network technology projects for public and non-profit sector organizations to follow;
- To educate the public and non-profit sectors about best practices in implementing a wide variety of digital network projects; and,
- To help reduce disparities in access to, and use of, digital network technologies.

The National Telecommunications and Information Administration (NTIA), in administering TOP, has awarded 456 grants, in all 50 states, the District of Columbia, and the U.S. Virgin Islands. In order to ensure that grant recipients are effectively promoting the efficient and widespread use of advanced telecommunications services to serve American communities and to comply

with the Government Performance and Results Act, NTIA will collect and analyze quantitative and qualitative data relating to start-up documentation, quarterly and annual progress reports, and close-out documentation on TOP-funded projects.

NTIA seeks a mechanism whereby it can evaluate the impacts of its projects on an ongoing basis, monitor grants more efficiently and effectively, and provide timely technical assistance to grant recipients. To enable the Program to monitor and to analyze the impacts of the funded projects, TOP seeks to incorporate standardized quantitative and qualitative data elements into an online structured reporting system. The reporting system will include a set of core data elements that apply to all projects.

II. Method of Collection

Data will be collected through the use of automated collection techniques. The information collection instrument to be used for this study will include a web-based structured reporting system for both quantitative and qualitative project information.

Committee for the Implementation of Textile
Agreements

June 29, 2001.

Commissioner of Customs,
*Department of the Treasury, Washington, DC
20229.*

Dear Commissioner: This directive
amends, but does not cancel, the directive

issued to you on November 15, 2000, by the
Chairman, Committee for the Implementation
of Textile Agreements. That directive
concerns imports of certain cotton, man-
made fiber, silk blend and other vegetable
fiber textiles and textile products, produced
or manufactured in Bangladesh and exported
during the twelve-month period which began
on January 1, 2001 and extends through
December 31, 2001.

Effective on July 6, 2001, you are directed
to increase the limits for the following
categories, as provided for under the Uruguay
Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit ¹
341	3,306,791 dozen.
363	34,632,734 numbers.

¹ The limits have not been adjusted to ac-
count for any imports exported after December
31, 2000.

The Committee for the Implementation of
Textile Agreements has determined that
these actions fall within the foreign affairs
exception of the rulemaking provisions of 5
U.S.C. 553(a)(1).

Sincerely,

J. Hayden Boyd,

*Acting Chairman, Committee for the
Implementation of Textile Agreements.*
