

responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have considered the environmental impact of this rule and concluded that under figure 2-1, paragraph (32)(e), of Commandant Instruction M16475.IC, this rule is categorically excluded from further environmental documentation. This final rule only deals with the operating schedule of an existing drawbridge and will have no impact on the environment. A "Categorical Exclusion Determination" is available in the docket for inspection or copying where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 117

Bridges.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-1(g); Section 117.255 also issued under authority of Pub. L. 102587, 106 Stat. 5039.

2. In (§ 117.733 add a new paragraph (k) to read as follows:

§ 117.733 New Jersey Intracoastal Waterway.

* * * * *

(k) The draw of Cape May Canal Railroad Bridge across Cape May Canal, mile 115.1, at Cape May shall operate as follows:

(1) The draw shall be maintained in the open position; the draw may close only for the crossing of trains and maintenance of the bridge. When the draw is closed for a train crossing a bridge tender shall be present to reopen

the draw after the train has cleared the bridge. When the draw is closed for maintenance a bridge tender shall be present to open the draw upon signal.

(2) Train service generally operates as follows (please contact Cape May Seashore Lines for current train schedules):

(i) Winter (generally December through March): In general, there is no train service, therefore the bridge is unmanned and placed in the full open position.

(ii) Spring (generally April through May and Fall (generally September through November): Generally weekend service only: Friday through Sunday train service starts at 10 a.m. and ends at 7:30 p.m. Monday through Thursday the bridge generally unmanned and in the open position.

(iii) Summer Service (generally June through August): Daily train service starting at 10 a.m. and ending 7:30 p.m.

(3) When a vessel approaches the drawbridge with the draw in the open position, the vessel shall give the opening signal. If no acknowledgement is received within 30 seconds, the vessel may proceed, with caution, through the open draw. When the draw is open and will be closing promptly, the drawbridge will generally signal using sound signals or radio telephone.

(4) Opening of the draw span may be delayed for ten minutes after a signal to open except as provide in (117.31(b). However, if a train is moving toward the bridge and has crossed the home signal for the bridge before the signal requesting opening of the bridge is given, the train may continue across the bridge and must clear the bridge interlocks as soon as possible in order to prevent unnecessary delays in the opening of the draw.

Dated: July 23, 2001.

Thad W. Allen,

Vice Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

Coast Guard

33 CFR Part 165

[CGD13-01-021]

RIN 2115-AA97

Safety Zone; Fireworks Display, Columbia River, Astoria, Oregon

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone on the waters of Columbia River in the vicinity of Astoria, Oregon from 9 p.m. to 11 p.m. (PDT) on August 12, 2001. The Captain of the Port, Portland, Oregon, is taking this action to safeguard watercraft and their occupants from safety hazards associated with the fireworks display. Entry into the safety zone, which encompasses all waters of the Columbia River at Astoria, Oregon within a 500 yard radius of the 11th street dock, will be prohibited unless authorized by the Captain of the Port.

DATES: This regulation is effective from 9 p.m. to 11 p.m. (PDT) on August 12, 2001.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are available for inspection or copying at the U.S. Coast Guard Group/MSO Portland, 6767 N. Basin Ave, Portland, Oregon 97217 between 7 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Chief Warrant Officer Bob Coster, (503) 240-9324.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for not publishing an NPRM and for making this rule effective less than 30 days after publication in the **Federal Register**. Publishing a NPRM would be contrary to public interest since immediate action is necessary to ensure the safety of vessels and spectators gathering in the vicinity of the fireworks launching area. Due to uncertainties related to planning, the event sponsor, the Astoria Fireworks Committee, was unable to provide the Coast Guard with notice of the final details until less than 30 days prior to the date of the event. If normal notice and comment procedures were followed, this rule would not become effective until after the date of the event. For this reason, following normal rulemaking procedures in this case would be impracticable and contrary to the public interest. Although this has not been an annual event, the location of this fireworks display is a locally accepted standard and safety zones have been adopted at this site as recently as July 4, 2001 with no negative public comment.

Background and Purpose

The Coast Guard is promulgating a temporary safety zone regulation to allow a safe fireworks display. The fireworks display is scheduled to start at 10 p.m. (PDT) on August 12, 2001. This event will result in a number of vessels congregating near the fireworks launching area. The safety zone is needed to provide for the safety of spectators and their watercraft from the inherent safety hazards associated with the fireworks display. Without providing for an adequate safety zone, the public could be exposed to falling burning debris or stray within blast range should a catastrophic accident occur on the launching barge. This safety zone will be enforced by representatives of the Captain of the Port, Portland, Oregon. The Captain of the Port may be assisted by other federal agencies and local agencies.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed this rule under that Order. This rule is not "significant" under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures act of DOT is unnecessary. This expectation is based on the fact that the regulated area established by the proposed regulation would encompass less than one mile of the Columbia for a period of only two hours.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), we considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit a portion of the Columbia River from 9 p.m. to 11 p.m. on August 12, 2001. This safety zone will not have significant economic

impact on a substantial number of small entities for the following reasons. This rule will be in effect for only 2 hours in the evening when vessel traffic is low. The safety zone will not apply to the entire width of the river, and traffic will be allowed to pass through the zone with the permission of the Coast Guard patrol commander. Because the impacts of this proposal are expected to be so minimal, the Coast Guard certifies under 5 U.S.C. 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this final rule will not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

We have analyzed this rule under Executive Order 13132 and have determined that this final rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those unfunded mandate costs. This rule will not impose an unfunded mandate.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian tribal governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the federal government and Indian tribes, or on the distribution of power and responsibilities between the federal government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that, under figure 2-1, paragraph (34)(g) of Commandant Instruction M16475.1C, this rule is categorically excluded from further environmental documentation. A Categorical Exclusion is provided for temporary safety zones of less than one week in duration. This rule establishes a safety zone with a duration of two hours.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191, 33 CFR 1.05–1(g), 6.04–1, 6.04–6, 160.5; 49 CFR 1.46.

2. A temporary § 165.T13–011 is added to read as follows:

§ 165.T13–011 Safety Zone; Columbia River Astoria, Oregon.

(a) *Location.* The following area is a safety zone: All waters of the Columbia River at Astoria, Oregon within a 500 yard radius of the 11th street dock, position 46 degrees 11.45 minutes north latitude, 123 degrees 49.88 minutes west longitude [Datum NAD 1983].

(b) *Regulations.* In accordance with the general regulations in § 165.23 of this part, no person or vessel may enter or remain in this zone unless authorized by the Captain of the Port or his designated representatives.

(c) *Effective dates.* This regulation is effective on August 12, 2001 from 9 p.m. to 11 p.m. (PDT).

Dated: July 23, 2001.

James D. Spitzer,

Captain, U.S. Coast Guard, Captain of the Port.

BILLING CODE 4910–15–P

DEPARTMENT OF COMMERCE

United States Patent and Trademark Office

37 CFR Part 1

[Docket No. 991105297–1167–04]

RIN 0651–AB01

Revision of Patent Fees for Fiscal Year 2002

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The United States Patent and Trademark Office (referred to as “we”, “us”, or “our” in this notice) is adjusting certain patent fee amounts to reflect fluctuations in the Consumer Price Index (CPI). Also, we are adjusting, by a corresponding amount, a few patent fees that track the affected fees. Our Director is authorized to adjust these fees annually by the CPI to recover the higher costs associated with doing business. In addition, we are changing the maintenance fee correspondence address to better serve our customers, and amending a fee to reflect current business practice. These amendments will keep our fees aligned with the CPI and streamline administrative matters. No trademark fee will be adjusted.

EFFECTIVE DATE: October 1, 2001.

FOR FURTHER INFORMATION CONTACT:

Matthew Lee by e-mail at matthew.lee@uspto.gov, or by telephone at (703) 305–8051.

SUPPLEMENTARY INFORMATION: This final rule was proposed in a notice of proposed rulemaking published at 66 FR 23642 on May 9, 2001. This rule adjusts our fees in accordance with the applicable provisions of title 35, United States Code, as amended by the Consolidated Appropriations Act, Fiscal Year 2000 (which incorporated the Intellectual Property and Communications Omnibus Reform Act of 1999) (Pub. L. 106–113). This final rule also adjusts, by a corresponding amount, a few patent fees (37 CFR 1.17(e), (r), (s), and (t)) that track statutory fees (either 37 CFR 1.16(a) or 1.17(m)). The proposal to adjust a trademark fee has been withdrawn; trademark fees are not affected by this final rule.

In addition, this final rule changes the maintenance fee correspondence address. The address change for maintenance fee payments benefits our customers by allowing the payments to be processed within 24 hours of receipt, rather than the current time frame of three to five days. Likewise, the funds are deposited more quickly with the United States Treasury. The address change for correspondence related to maintenance fees other than payments of maintenance fees in patents permits us to respond in a timelier manner. Maintenance fee correspondence received at the “Box M Fee” address will be forwarded to the appropriate address in § 1.1(d).

Background

Statutory Provisions

Patent fees are authorized by 35 U.S.C. 41 and 35 U.S.C. 376. For fees paid under 35 U.S.C. 41(a) and (b), independent inventors, small business concerns, and nonprofit organizations who meet the requirements of 35 U.S.C. 41(h)(1) are entitled to a fifty-percent reduction.

Subsection 41(f) of title 35, United States Code, provides that fees established under 35 U.S.C. 41(a) and (b) may be adjusted on October 1, 1992, and every year thereafter, to reflect fluctuations in the CPI over the previous twelve months.

Subsection 41(d) of title 35, United States Code, authorizes the Director to establish fees for all other processing, services, or materials related to patents to recover the average cost of providing these services or materials, except for the fees for recording a document affecting title, for each photocopy, for

each black and white copy of a patent, and for library services.

Section 376 of title 35, United States Code, authorizes the Director to set fees for patent applications filed under the Patent Cooperation Treaty (PCT).

Subsection 41(g) of title 35, United States Code, provides that new fee amounts established by the Director under section 41 may take effect thirty days after notice in the **Federal Register** and the *Official Gazette of the United States Patent and Trademark Office*.

Fee Adjustment Level

The patent statutory fees established by 35 U.S.C. 41(a) and (b) will be adjusted on October 1, 2001, to reflect any fluctuations occurring during the previous twelve months in the Consumer Price Index for all urban consumers (CPI–U). In calculating these fluctuations, the Office of Management and Budget (OMB) has determined that we should use CPI–U data as determined by the Secretary of Labor. In accordance with previous fee-setting methodology, we use the Administration’s projected CPI–U for the twelve-month period ending September 30, 2001, which is 3.6 percent. Based on this projection, patent statutory fees will be adjusted by 3.6 percent.

Certain patent processing fees established under 35 U.S.C. 41(d), 119, 120, 132(b), 376, and Public Law 103–465 (the Uruguay Round Agreements Act) will be adjusted to reflect fluctuations in the CPI.

The fee amounts were rounded by applying standard arithmetic rules so that the amounts rounded will be convenient to the user. Fees of \$100 or more for other than a small entity were rounded to the nearest \$10. Fees of less than \$100 were rounded to an even number so that any comparable small entity fee will be a whole number.

General Procedures

Any fee amount that is paid on or after the effective date of the fee increase will be subject to the new fees then in effect. The amount of the fee to be paid will be determined by the time of filing. The time of filing will be determined either according to the date of receipt in our office or the date reflected on a proper Certificate of Mailing or Transmission, where such a certificate is authorized under 37 CFR 1.8. Use of a Certificate of Mailing or Transmission is not authorized for items that are specifically excluded from the provisions of § 1.8. Items for which a Certificate of Mailing or Transmission under § 1.8 are not authorized include, for example, for filing of Continued
