

requirements in the Code of Federal Regulations (CFR) under 18 CFR Parts 41, 101, 141.1 and 385.2011.

Action: The Commission is requesting a three-year extension of the current expiration date, and proposing certain changes to the existing collection of data. Based on a review of the FERC's requirements for Form 1 data and requests from respondents for reductions in the information collection, the Commission recommends the elimination of the Form 1 schedules listed below:

- Security Holders and Voting Powers (106–107)
- Construction Overheads—electric (217)
- General Description of Construction Overhead Procedure (218)
- Nonutility Property (221)
- Capital Stock Sub, Cap Stock Liability for Con, Prem. Cap Stock, & Inst Received (252)
- Discount on Capital Stock (254)
- Number of Electric Department Employees (323)
- Particulars Concerning Certain Income Deduction and Interest Charges (340)

- Electric Distribution Meters and Line Transformers (429)
- Environmental Protection Facilities (430)
- Environmental Protection Expenses (431)

In addition, the Commission is eliminating the requirement for paper copies of the Form 1. *Burden Statement:* Public reporting burden for this collection will be reduced by the elimination of several schedules and the paper filing format requirement. The burden is estimated as:

Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1)	(2)	(3)	(1)×(2)×(3)
210	1	1,050	220,500

Estimated cost burden to respondents: 220,500 hours/2,080 hours per year × \$117,041 per year = \$26,000,000. The cost per respondent is equal to \$123,800.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond.
