South Carolina: Final Authorization of State Hazardous Waste Management Program Revisions**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: South Carolina has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to South Carolina. In the “Rules and Regulations” section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by September 20, 2001.

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List**AGENCY:** Environmental Protection Agency.**ACTION:** Notice of intent to delete the V&M/Albaladejo Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region II is issuing a notice of intent to delete the V&M/Albaladejo Superfund Site (Site), located in the Almirante Norte Ward of the municipality of Vega Baja, Puerto Rico, from the National Priorities List (NPL) and requests public comment on this action. The NPL is Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR part 300, which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended. The EPA and the Commonwealth of Puerto Rico, through the Puerto Rico Environmental Quality Board, have determined that all appropriate response actions under CERCLA have been completed and that the Site poses no significant threat to public health or the environment. In the “Rules and Regulations” Section of today’s **Federal Register**, we are publishing a direct final notice of deletion of the V&M/Albaladejo Superfund Site without prior notice of this action because we view this as a noncontroversial revision and anticipate no significant adverse comment. We have explained our reasons for this deletion in the preamble

to the direct final deletion. If we receive no significant adverse comment(s) on this action, we will not take further action on this notice of intent to delete. If we receive significant adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments. If, after evaluating public comments, EPA decides to proceed with deletion, we will do so in a subsequent final deletion notice based on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct

final notice of deletion which is located in the Rules section of this **Federal Register**.
