#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

The Codex Alimentarius Commission was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled.

The CCNFSDU was established to study specific nutritional problems assigned to it by the Commission and advise the Commission on general nutritional issues; to draft general provisions as appropriate, concerning the nutritional aspects of all foods; to develop standards, guidelines or related texts for foods for special dietary uses, in cooperation with other committees when necessary; and to consider, amend if necessary, and endorse provisions on nutritional aspects proposed for inclusion in Codex standards, guidelines and related texts. The committee is hosted by the Federal Republic of Germany.

##### **Issues to be Discussed at the Public Meeting**

The following items will be on the Agenda for the 23rd Session of the Committee and will be discussed at this meeting. Documents related to these items will be issued from Codex in Rome and will be available prior to the meeting.

- Guidelines for Use of Nutrition Claims: Draft Table of Conditions for Nutrient Contents: Dietary Fibre
- Draft Revised Standard for Gluten-Free Foods
