SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The General Mining Law (30 U.S.C. 612), Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733), and the regulations under 43 CFR 3715 authorizes BLM to manage use and occupancy of mining claims on public lands. The nonform information in the regulations under 43 CFR 3715 authorizes BLM to collect information concerning proposed mining development activities on public lands. Without this information, BLM would not be able to analyze and approve proposed use and occupancy activities on public lands by mining claimants. Also, BLM would not be able to carry

out the mandate of the Federal Land Policy and Management Act of 1976.

Mining claimants planning to occupy their mining claims on public lands under the mining laws must submit the following information to BLM:

(1) A detailed map that identifies the site and shows the place of temporary and permanent structures for occupancy, the location of and reason for the structures intended to exclude the public, and the location of reasonable public passage or access routes through or around the area adjacent to public lands;

(2) A written description of the proposed occupancy that describes in detail how the proposed occupancy is reasonably incident to mining and how the proposed occupancy meets the conditions of 43 CFR 3715.2 and 3715.2-1; and

(3) An estimate of the period of use of the structures which excludes the public and a schedule for their removal and reclamation when the operations end.

Based upon BLM experience with mining claims use and occupancy activity, we estimate the public reporting information collection burden takes 2 hours to complete. The respondents are mining claimants and operators of prospecting, exploration, mining, and processing operations. The estimated number of responses per year is 280 and the total annual burden is 560 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: July 30, 2001.

BLM Information Collection Clearance Officer.

The Mineral Leasing Act of 1920 (MLA), 30 U.S.C. 191 *et seq.*, gives the Secretary of the Interior responsibility for oil and gas leasing on approximately 570 million acres of public lands and national forests, and private lands where the mineral rights are reserved by the Federal Government. The Act of

May 21, 1930 (30 U.S.C. 301–306), authorizes the leasing of oil and gas deposits under railroads and other rights-of-way. The Act of August 7, 1947 (Mineral Leasing Act of Acquired Lands), authorizes the Secretary to lease lands acquired by the United States (30 U.S.C. 341–359). The regulations under 43 CFR 3000–3120 authorize BLM to manage the oil and gas leasing and

exploration activities. Without the information, BLM would not be able to analyze and approve oil and gas leasing and exploration activities.

BLM collects nonform information on oil and gas leasing and exploration activities when the lessee, record title holder, operating rights owner, or operator files any of the following information for BLM to adjudicate:

Information collection on oil and gas leasing and exploration activities	Estimated burden hours
1. Notice of option holdings for acreage chargeability option statement	1
2. Petition requesting additional time to divest excess acreage	1
3. Statement showing date, acreage, State in which leases are held	1
4. Statement showing unit agreement entered into if lease is for lands within an approved unit	1.5
5. Application for waiver, suspension, or reduction of rental or royalty	1
6. Copy of communitization or drilling agreement interest held in operating, drilling, or development contracts	2
7. Application to combine operations or transport oil	2
8. Application for subsurface storage of oil and gas	2
9. Statement that heirs and devisees are qualified to hold lease	1
10. Reporting a change of name	1
11. Notification of corporate merger	2
12. Application for renewing lease	1
13. Application to relinquish lease	0.5
14. Application to reinstate lease	0.5
15. Application for lease located within a right-of-way	1
16. Application for oil and gas exploration permit in Alaska	1
17. Reporting date of exploration activities	1
18. Reporting completion of operations	1

Based upon BLM experience with managing the oil and gas leasing and exploration activities, we estimate the above public reporting information collection burden. The estimated number of responses per year is 1,400 and the total annual burden is 1,400 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.
