Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Mexican Border Youth Survey (BYS)—New

Violence and substance abuse are a serious concern at places along the U.S.-

Mexico border. Young people ages 18–25 are attracted to Mexico because alcohol is inexpensive and the drinking age is 18 rather than 21. SAMHSA's Center for Substance Abuse Prevention is planning to conduct surveys at five sites along the Texas-Mexico border to support development, implementation and assessment of enforcement and education programs to address underage and binge drinking related problems. This program replicates a project targeting underage and binge drinking that has been implemented in San Diego, California ("Operation Safe Crossing"), which has yielded successful outcomes, including a 26% reduction in youth crossing the border to drink alcohol.

The purpose of replicating the model in Texas is to test local adaptations of the program which includes surveys of youth crossing the U.S.-Mexico border. This effort uses the survey data to inform the public of problem behaviors specific to their local community and serves to develop community awareness and inform community interventions, such as underage curfews and enforcing bar closing hours. The data collected will be made available to local groups

to assist in raising community awareness of youth drinking issues. It is expected that communities will use the information to tailor interventions to reduce youth drinking-associated problems.

The BYS is comprised of two surveys, which are conducted on Friday and Saturday of one randomly selected weekend each month in each site. All information is collected in an anonymous and confidential manner. One survey, the Mexican Entry Survey, interviews a sample of youths on their way into Mexico between 9 p.m. and 1 a.m. The other survey, the Mexican Exit Survey, includes those same youths returning from Mexico between midnight and 6 a.m. the next day and an independent sample of pedestrians and drivers (where many young drinkers drive rather than walk across the border). The Exit Survey includes a breath test. In addition, there will be a 1-time test of saliva to test reliability and validity of the collection and analysis process.

The total annual burden associated with this project across all sites is summarized in the table below.

| Sample | Number of respondents | Responses/ respondent | Hours/ response | Total burden (hours) |
|--|-----------------------|-----------------------|-----------------|----------------------|
| Mexican Entry Survey: | | | | |
| —Entry Survey | 6,000 | 1 | .25 | 498 |
| —Exit Survey | (6,000) | 1 | .083 | 498 |
| Mexican Exit Survey, with breath or saliva test and pedestrians or drivers ... | 15,000 | 1 | .083 | 1,245 |
| One-time Pilot Saliva Test in one location only | (100) | 2 | .050 | 10 |
| Total | 21,000 | | | 3,253 |

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Lauren Wittenberg, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: August 23, 2001.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of Subpart C of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A similar notice listing all currently certified laboratories will be published during the first week of each month, and updated to include laboratories which subsequently apply for and complete the certification

process. If any listed laboratory's certification is totally suspended or revoked, the laboratory will be omitted from updated lists until such time as it is restored to full certification under the Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This Notice is also available on the internet at the following websites: <http://workplace.samhsa.gov>; <http://www.drugfreeworkplace.gov>; and <http://www.health.org/workplace>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersch or Dr. Walter Vogl, Division of Workplace Programs, 5600 Fishers Lane, Rockwall 2 Building, Room 815, Rockville, Maryland 20857; Tel.: (301) 443-6014, Fax: (301) 443-3031.

SUPPLEMENTARY INFORMATION: Mandatory Guidelines for Federal Workplace Drug Testing were developed

in accordance with Executive Order 12564 and section 503 of Pub. L. 100-71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection.

To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Guidelines, the following laboratories meet the minimum standards set forth in the Guidelines:

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian Laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited Laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian Laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. Laboratories do.

Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (Federal Register, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 Federal Register, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified Laboratories and participate in NLCP certification maintenance program.

 Executive Officer, Substance Abuse and Mental Health Services Administration.

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act and Oil Pollution Control Act of 1990

In accordance with 28 CFR 50.7, notice is hereby given that on August 23, 2001 a proposed consent decree in *United States v. Tesoro Hawaii Corporation*, Civil Action No. 01-00560 SOM LEK, was lodged with the United States District Court for the District of Hawaii.

This action arose out of the August 24, 1998 oil spill from Tesoro's single-point mooring facility located offshore of Barber's Point, Oahu, Hawaii. The United States alleges that oil from the oil spill caused injuries to natural resources in and around Kauai. The consent decree requires the company to carry out a net removal project, and pay a total of \$580,000 allocated as follows: \$500,000 for natural resources restoration projects compensating for injuries to wildlife and habitat, \$10,000 for restoration projects compensating for lost human use, \$15,000 as a penalty to the State of Hawaii, and \$55,000 to the State as a state supplemental environmental project.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments on the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Tesoro Hawaii Corporation*, Civil Action No. 01-00560 SOM LEK, DOJ No. 90-5-2-1-2124/2.

The proposed consent decree may be examined at the office of the United States Attorney, Suite 6100, Box 50183, 300 Ala Moana Boulevard, Honolulu, Hawaii 96850, and may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611. To request a copy of the proposed consent decree by mail, please refer to *United States v. Tesoro Hawaii Corporation*, Civil Action No. Civil 01-00560 SOM LEK, DOJ No. 90-5-2-1-2124/2, and enclose a check for the amount of \$7.75 (25 cents per page reproduction cost) payable to the Consent Decree Library.

Ellen Mahan,
 Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.
