

Alaska under Federal Fisheries Permits. NMFS has taken steps to mitigate the impact of this action on small entities by not requiring vessel owners to determine whether their registered LOAs are consistent with the revised definition. Nevertheless, some of the 1,613 vessels currently operating in the EEZ off Alaska under Federal Fisheries Permits may find their registered LOAs to be inconsistent with the regulatory definition of LOA. Vessels failing to have correct LOA measurements may incur costs associated with remeasuring their LOA. Unfortunately, at this time, NMFS has insufficient data to assess the actual number of such vessels affected in this manner, but it believes most LOAs are accurate.

However, vessels that are near observer coverage thresholds (125 ft (38.1 m) or 60 ft (18.3 m), as applicable) may incur considerable cost if it is determined that their LOA is incorrect and if a higher level of observer coverage would be required.

Approximately 38 vessels with recorded LOA measurements of 122 ft (37.2 m), 123 ft (37.5 m), and 124 ft (37.8 m), may be subject to more stringent observer requirements if their LOAs are actually 125 ft (38.1 m), or greater. Approximately 156 vessels with LOA measurements of 57 ft (17.4 m), 58 ft (17.7 m), and 59 ft (18.0 m) may be subject to more stringent observer requirements if their LOAs are actually 60 ft (18.3 m) or greater. Such vessels could incur costs of \$300/day for an observer.

The FRFA provides some evidence that bulwarks are typically included in measurements of LOA by marine surveyors.

List of Subjects in 50 CFR Part 679

Alaska, Fisheries, Recordkeeping and reporting requirements.

Dated: September 5, 2001.

John Oliver,

Acting Assistant Administrator for Fisheries,
National Marine Fisheries Service.

For the reasons set forth in the preamble, 50 CFR part 679 is amended as follows:

PART 679—FISHERIES OF THE EXCLUSIVE ECONOMIC ZONE OFF ALASKA

1. The authority citation for 50 CFR part 679 continues to read as follows:

Authority: 16 U.S.C. 773 *et seq.*, 1801 *et seq.*, and 3631 *et seq.*; title II of Division C, Pub. L. 105-277; Sec. 3027, Pub. L. 106-31, 113 Stat. 57; 16 U.S.C. 1540(f).

2. In § 679.2, the definition for “Bulwark” is added in alphabetical

order, the definition for “Length overall of a vessel” is revised; and the definitions for “Stem” and “Stern” are removed as follows:

§ 679.2 Definitions.

* * * * *

Bulwark means a section of a vessel's side continuing above the main deck.

* * * * *

Length overall (LOA) of a vessel means the centerline longitudinal distance, rounded to the nearest foot, measured between:

(1) The outside foremost part of the vessel visible above the waterline, including bulwarks, but excluding bowsprits and similar fittings or attachments, and

(2) The outside aftermost part of the vessel visible above the waterline, including bulwarks, but excluding rudders, outboard motor brackets, and similar fittings or attachments (see Figure 6 to this part).

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 010112013-1013-01; I.D. 090701A]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock In Statistical Area 610 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the C season allowance of the pollock total allowable catch (TAC) for Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 7, 2001, until 1200 hrs, A.l.t., October 1, 2001.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council

under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

Within any fishing year, under harvest or over harvest of a seasonal allowance of pollock may be added to or subtracted from the subsequent seasonal allowances of pollock in a manner to be determined by the Administrator, Alaska Region, NMFS (Regional Administrator), provided that a revised seasonal allowance does not exceed 30 percent of the annual TAC apportionment (§ 679.20(A)(5)(ii)(C)). The combined A, B, and C season allowance of the pollock TAC in Statistical Area 610 is 22,559 metric tons (mt) as established by the Final 2001 Harvest Specifications and Associated Management Measures for the Groundfish Fisheries Off Alaska (66 FR 7276, January 22, 2001 and 66 FR 37167, July 17, 2001). The Regional Administrator has determined that the A and B seasonal catch was in excess of the allowances by 170 mt and that the excess shall be proportionately subtracted from the subsequent seasonal allowances. The Regional Administrator hereby reduces the C season pollock TAC by 93 mt. In accordance with § 679.20(a)(5)(ii)(C), the C season allowance of pollock TAC in Statistical Area 610 is 10,905 mt.

In accordance with § 679.20(d)(1)(i), the Regional Administrator, has determined that the C season allowance of the pollock TAC in Statistical Area 610 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 10,705 mt, and is setting aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the seasonal allocation of pollock in Statistical Area 610 constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would

be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion to prevent exceeding the seasonal allocation of pollock in Statistical Area 610 constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553 (d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 7, 2001.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 010112013-1013-01; I.D. 090701B]

Fisheries of the Exclusive Economic Zone Off Alaska; Trawling in Steller Sea Lion Protection Areas in the Central Aleutian District of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting trawling within Steller sea lion protection areas in the Central Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the B season critical habitat limit of the 2001 total allowable catch (TAC) of Atka mackerel allocated to the Central Aleutian District.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 9, 2001, through 2400 hrs. A.l.t., December 31, 2001.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2001 B season apportionment of TAC for Atka mackerel in the Central Aleutian District is 15,540 metric tons (mt), of which no more than 7,148 mt may be harvested from Steller Sea lion protection areas (66 FR 7276, January 22, 2001 and 66 FR 37167, July 17, 2001). See §§ 679.20 (a)(8)(ii)(A) and 679.22 (a)(12)(iii)(B).

In accordance with § 679.22 (a)(12)(iii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the allowable harvest of Atka mackerel in the Steller Sea lion protection areas in the Central Aleutian District has been reached.

Consequently, NMFS is prohibiting trawling in selected rookery and haul out sites, as defined at Table 21 of 50 CFR 679.22 and described at 50 CFR 679.22 (a)(12)(iii)(A) in the Central Aleutian District of the BSAI.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the amount of the 2001 Atka mackerel critical habitat limit in the Central Aleutian District of the BSAI constitutes good cause to waive the requirement to provide prior notice opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553 (b)(3)(B) and 50 CFR 679.20 (b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion to prevent exceeding the 2001 Atka mackerel critical habitat limit in the Central Aleutian District of the BSAI constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553 (d), a delay in the effective date is hereby waived.

This action is required by §§ 679.20 and 679.22 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 7, 2001.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
