BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30270; Amdt. No. 2071]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAP's) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference-approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Area Office which originated the SIAP.

*For Purchase—*Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

*By Subscription—*Copies of all SIAP's mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT:

Donald P. Pate, Flight Procedure Standards Branch (AMCAFS-420), Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd. Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082 Oklahoma City, OK 73125) telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes SIAP's. The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 14 CFR 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Form 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAP's, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. The SIAP's contained in this amendment are based on the criteria contained in the United States Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports.

The FAA has determined through testing that current non-localizer type, non-precision instrument approaches developed using the TERPS criteria can be flown by aircraft equipped with a Global Positioning System (GPS) and or Flight Management System (FMS) equipment. In considering of the above, the applicable SIAP's will be altered to include "or GPS or FMS" in the title without otherwise reviewing or modifying the procedure. (Once a stand alone GPS or FMS procedure is developed, the procedure title will be altered to remove "or GPS or FMS" from these non-localizer, non-precision instrument approach procedure titles.)

The FAA has determined through extensive analysis that current SIAP's intended for use by Area Navigation (RNAV) equipped aircraft can be flown by aircraft utilizing various other types of navigational equipment. In consideration of the above, those SIAP's currently designated as "RNAV" will be redesignated as "VOR/DME RNAV" without otherwise reviewing or modifying the SIAP's.

Because of the close and immediate relationship between these SIAP's and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are, impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a

“significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipate impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Air traffic control, Airports, Navigation (air).

Issued in Washington, DC on September 14, 2001.

Nicholas A. Sabatini,
Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113–40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

§§ 97.23, 97.27, 97.33 and 97.35 [Amended]

2. Amend 97.23, 97.27, 97.33 and 97.35, as appropriate, by adding, revising, or removing the following SIAP's, effective at 0901 UTC on the dates specified:

* * * *Effective November 1, 2001*

RIN 1515–AC84

Distribution of Continued Dumping and Subsidy Offset to Affected Domestic Producers

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations to implement the Continued Dumping and Subsidy Offset Act of 2000, by prescribing the administrative procedures, including the time and manner, under which antidumping and countervailing duties assessed on imported products would be distributed to affected domestic producers as an offset for certain qualifying expenditures. This distribution to the affected producers is known as the continued dumping and subsidy offset.

EFFECTIVE DATE: September 21, 2001.

FOR FURTHER INFORMATION CONTACT: Jeffrey J. Laxague, Office of Regulations and Rulings, (202–927–0505).

SUPPLEMENTARY INFORMATION:

Background

Antidumping duties are imposed upon imported merchandise that the U.S. Department of Commerce has found is, or is likely to be, sold in the United States at less than its fair value. Countervailing duties are imposed upon imported merchandise that the Department of Commerce determines benefits from actionable subsidies bestowed by a foreign government. In all antidumping cases, and in most countervailing duty cases, these duties are only assessed if the U.S. International Trade Commission determines that the imported goods cause material injury or the threat of material injury to a domestic industry. The rules and procedures concerning proceedings leading to orders or findings under which antidumping and countervailing duties are assessed are found in 19 U.S.C. 1671 *et seq.*, in part

207 of the regulations of the U.S. International Trade Commission (19 CFR chapter II, part 207), and in part 351 of the regulations of the International Trade Administration, U.S. Department of Commerce (19 CFR chapter III, part 351).

The Continued Dumping and Subsidy Offset Act of 2000 (“CDSOA”) was enacted on October 28, 2000, as part of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 (“Act”) (Pub. L. 106–387; 114 Stat. 1549). The provisions of the CDSOA are contained in Title X (sections 1001–1003) of the Act.

The CDSOA, in section 1003 of the Act, amended Title VII of the Tariff Act of 1930, by adding a new section 754 (codified at 19 U.S.C. 1675c) in order to provide that assessed duties received pursuant to a countervailing duty order, an antidumping duty order, or an antidumping duty finding under the Antidumping Act of 1921, would be distributed by Customs to affected domestic producers for certain qualifying expenditures that these producers incur after the issuance of such an antidumping duty order or finding, or countervailing duty order. This distribution is called the continued dumping and subsidy offset. It is noted that the continued dumping and subsidy offset under 19 U.S.C. 1675c covers all antidumping and countervailing duty assessments made on or after October 1, 2000, in connection with all antidumping duty orders or findings, or countervailing duty orders, in effect as of January 1, 1999, or issued thereafter. Pursuant to 19 U.S.C. 1675c, the Commissioner of Customs shall prescribe procedures for distribution of the continued dumping and subsidy offset.

Customs Rulemaking

Accordingly, by a document published in the **Federal Register** (66 FR 33920) on June 26, 2001, Customs proposed to amend the Customs Regulations to add a new subpart F to part 159 (19 CFR part 159, subpart F; §§ 159.61–159.64) that principally prescribed the procedures, including the time and manner, and the required information necessary for the distribution of antidumping and countervailing duties assessed under an appropriate order or finding, that would be payable as a continued dumping and subsidy offset to those affected domestic producers for their qualifying expenditures, in accordance with section 754 of the Tariff Act of 1930, as amended (19 U.S.C. 1675c).
