

specification (sample specifications: ASTM A506, A507).

- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this investigation is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled carbon steel flat products covered by this investigation, including: Vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and U.S. Customs purposes, the written description of the merchandise under investigation is dispositive.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we are directing the Customs Service to continue to suspend liquidation of all entries of subject merchandise from the PRC, that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of the *Preliminary Determination* in the **Federal Register**. The Customs Service shall continue to require a cash deposit or posting of a bond equal to the estimated amount by which the normal value exceeds the U.S. price as shown below. This suspension of liquidation

instructions will remain in effect until further notice.

The weighted-average dumping margins are as follows:

Manufacturer/exporter	Weighted-average margin (percent)
Angang Group International Trade Corporation	69.85
Shanghai Baosteel Group Corporation	64.20
Benxi Iron & Steel Group Co., Ltd.	90.83
Panzhuhua Iron & Steel (Group) Company	65.59
Wuhan Iron & Steel Group Corporation	65.59
PRC-Wide	90.83

ITC Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (“ITC”) of our determination. As our final determination is affirmative, the ITC will, within 45 days, determine whether these imports are materially injuring, or threaten material injury to, the U.S. industry. If the ITC determines that material injury, or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing Customs officials to assess antidumping duties on all imports of the subject merchandise entered for consumption on or after the effective date of the suspension of liquidation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: September 21, 2001.

Faryar Shirzad,
Assistant Secretary for Import Administration.

Welded Large Diameter Line Pipe From Mexico: Postponement of Final Determination of Antidumping Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of postponement of final determination of antidumping duty investigation.

EFFECTIVE DATE: September 28, 2001.
FOR FURTHER INFORMATION CONTACT: Rick Johnson at (202) 482-3818; Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Statutory Time Limits

Section 735(a)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department of Commerce (the Department) to issue the final determination of an antidumping duty investigation within 75 days of the date of the preliminary determination. However, if a request is made in writing by exporters who account for a significant proportion of exports of the merchandise which is the subject of the investigation, in a proceeding in which the preliminary determination by the administering authority under section 733(b) was affirmative, section 735(a)(2) of the Act allows the Department to postpone the final determination until

not later than the 135th day after the date on which it published notice of its preliminary determination.

Background

On January 30, 2001, the Department initiated the above-referenced investigation. See *Notice of Initiation of Antidumping Duty Investigations: Welded Large Diameter Line Pipe from Mexico and Japan*, 66 FR 11266 (February 23, 2001). The preliminary determination was published in the **Federal Register** on August 15, 2001. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Welded Large Diameter Line Pipe From Mexico ("Preliminary Determination")*, 66 FR 42841 (August 15, 2001).

Extension of Final Determination

The respondent in this investigation has requested that the Department postpone by 60 days the final antidumping determination. Because this request was made consistent with section 735(a)(2)(A) of the Act, the Department is postponing the deadline for issuing this determination until December 28, 2001, which is 135 days after publication of the Preliminary Determination.

Dated: September 20, 2001.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Final Affirmative Countervailing Duty Determination: Certain Hot-Rolled Carbon Steel Flat Products From India

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final affirmative countervailing duty investigation.

SUMMARY: On April 20, 2001, the Department of Commerce (the Department) published in the **Federal Register** its preliminary affirmative determination in the countervailing duty investigation of certain hot-rolled carbon steel flat products from India for the period April 1, 1999 through March 31, 2000.

The net subsidy rates in the *Final Determination* differ from those of the *Preliminary Determination*. The revised final net subsidy rates for the investigated companies are listed below

in the "Suspension of Liquidation" section of this notice.

EFFECTIVE DATE: September 28, 2001.

FOR FURTHER INFORMATION CONTACT: Eric B. Greynolds at (202) 482-6071 or Robert Copyak at (202) 482-2209, Office of AD/CVD Enforcement VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4012, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR part 351 (2000).

Background

On April 20, 2001, the Department published the preliminary results of investigation on certain hot-rolled carbon steel flat products from India. See *Notice of Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Countervailing Duty Determinations: Certain Hot-Rolled Carbon Steel Flat Products from India*, 66 FR 20240 (April 20, 2001) (*Preliminary Results*). This investigation covers the following manufacturer/exporters: Steel Authority of India Limited (SAIL), Essar Steel Limited (Essar), Ispat Industries Limited (Ispat), and the Tata Iron and Steel Company Limited (TISCO). The investigation covers the period April 1, 1999, through March 31, 2000. The investigation covers 10 programs.

We invited interested parties to comment on the *Preliminary Determination*. On August 20, 2001, we received comments from petitioners and respondents. On August 30, 2001, we received rebuttal comments from petitioners and respondents. At the request of the Department, respondents subsequently submitted revised rebuttal comments on September 6, 2001. A public hearing was held at the Department of Commerce on September 5, 2001.

The Government of India (GOI) submitted a proposed suspension agreement on April 20, 2001. The GOI proposed an agreement again on August 6, 2001. The Department did not accept the GOI's proposals.

Although the deadline for this determination was originally September 17, 2001, in light of the events of September 11, 2001, and the subsequent closure of the Federal Government for reasons of security, the timeframe for issuing this determination has been extended by four days.

Scope of the Investigation

The merchandise subject to this investigation is certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this investigation.

Specifically included within the scope of this investigation are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this investigation, regardless of definitions in the *Harmonized Tariff Schedule of the United States (HTS)*, are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or 2.25 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or
