

nonprofit agencies to provide the commodities and services and impact of the additions on the current or most recent contractors, the Committee has determined that the commodities and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and services to the Government.

2. The action will not have a severe economic impact on current contractors for the commodities and services.

3. The action will result in authorizing small entities to furnish the commodities and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the commodities and services proposed for addition to the Procurement List.

Accordingly, the following commodities and services are hereby added to the Procurement List:

Commodities

BILLING CODE 6353–01–P

BROADCASTING BOARD OF GOVERNORS

Sunshine Act Meeting

DATE AND TIME: October 10 & 11, 2001;
9:30 a.m.–5 p.m.

PLACE: Cohen Building, Room 3321, 330 Independence Ave., SW., Washington, DC 20237.

CLOSED MEETING: The members of the Broadcasting Board of Governors (BBG) will meet in closed session to review

and discuss a number of issues relating to U.S. Government-funded non-military international broadcasting. They will address internal procedural, budgetary, and personnel issues, as well as sensitive foreign policy issues relating to potential options in the U.S. international broadcasting field. This meeting is closed because if open it likely would either disclose matters that would be properly classified to be kept secret in the interest of foreign policy under the appropriate executive order (5 U.S.C. 552b.(c)(1)) or would disclose information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action. (5 U.S.C. 552b.(c)(9)(B)) In addition, part of the discussion will relate solely to the internal personnel and organizational issues of the BBG or the International Broadcasting Bureau. (5 U.S.C. 552b.(c)(2) and (6))

CONTACT PERSON FOR MORE INFORMATION:

Persons interested in obtaining more information should contact either Brenda Hardnett or Carol Booker at (202) 401–3736.

Dated: October 3, 2001.

Carol Booker,

Legal Counsel.

DEPARTMENT OF COMMERCE

[I.D. 100201A]

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Coastal Zone Management Program Administration.

Form Number(s): None.

OMB Approval Number: 0648–0119.

Type of Request: Regular submission.

Burden Hours: 6,598.

Number of Respondents: 34.

Average Hours Per Response: 10

hours for a Section 305 semi-annual performance report, 800 hours for a Section 305 program management document, 27 hours for semi-annual performance reports for Sections 306/306A/309/310/6217, 6 hours for an annual report, 8 hours for a program amendment or routine program change, 5 hours for Section 306A documentation, 150 hours for a Section

6217 nonpoint pollution control program, 240 hours for a new Section 6217 nonpoint pollution control program, 5 hours for a semi-annual performance report for Section 310 special appropriations, and 240 hours for a Section 309 assessment and strategy document

Needs and Uses: Coastal zone management grants provide funds to states and territories to implement federally-approved coastal zone management plans, to revise assessment documents and multi-year strategies, to submit requests to approve amendments or program changes, and to submit Section 306A documentation on their approved coastal zone management plans. Funds are also provided to states to develop their coastal management documents. The information submitted is used to determine if activities achieve national coastal management and enhancement objectives and if states are adhering to their approved plans.

Affected Public: State, local, or tribal Government.

Frequency: On occasion, semi-annual, annual, and every five years.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: September 27, 2001.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-588-838]

Final Results of Expedited Sunset Review: Clad Steel Plate From Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Expedited Sunset Review: Clad Steel Plate from Japan.

SUMMARY: On June 1, 2001, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty order on clad steel plate from Japan (66 FR 29771) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and substantive comments filed on behalf of the domestic industry, and inadequate response (in this case, no response) from respondent interested parties, the Department determined to conduct an expedited review. As a result of this review, the Department finds that revocation of the antidumping order would be likely to lead to continuation or recurrence of dumping at the levels indicated in the Final Results of Review section of this notice.

EFFECTIVE DATE: October 5, 2001.

FOR FURTHER INFORMATION CONTACT: Martha V. Douthit or Carole A. Showers, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-5050 or (202) 482-3217 respectively.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

This review was conducted pursuant to section 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders, 63 FR 13516 (March 20, 1998) ("Sunset Regulations"), and in 19 CFR part 351 (2000) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3 Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Background

On June 1, 2001, the Department initiated a sunset review of the antidumping duty order on clad steel plate from Japan (66 FR 29771), pursuant to section 751(c) of the Act. The Department received a notice of intent to participate on behalf of one domestic interested party, Bethlehem Lukens Plate ("Lukens"), formerly Lukens Steel Company, within the

applicable deadline specified in section 351.218(d)(1)(i) of the Sunset Regulations. Lukens claimed interested party status under section 771(9)(C) of the Act, as a producer of a domestic like product in the United States. On July 2, 2001, we received a complete substantive response from Lukens, within the 30-day deadline specified in the Sunset Regulations under section 351.218(d)(3)(i). We did not receive a substantive response from respondent interested parties in this proceeding. As a result, pursuant to 19 CFR 351.218(e)(1)(iii)(C), the Department determined to conduct an expedited sunset, 120-day, review of this antidumping duty order.

Scope of Review

The scope of this review is all clad steel plate of a width of 600 millimeters ("mm") or more and a composite thickness of 4.5 mm or more. Clad steel plate is a rectangular finished steel mill product consisting of a layer of cladding material (usually stainless steel or nickel) which is metallurgically bonded to a base or backing of ferrous metal (usually carbon or low alloy steel) where the latter predominates by weight.¹

Clad steel plate within the scope of this review is classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") 7210.90.10.00. Although the HTSUS subheading is provided for convenience and Customs purposes, our written description of the scope of this review is dispositive.

Analysis of Comments Received

All issues raised by parties to this sunset review are addressed in the Issues and Decision Memorandum

¹ Cladding is the association of layers of metals of different colors or natures by molecular interpenetration of the surfaces in contact. This limited diffusion is characteristic of clad products and differentiates them from products metalized in other manners (i.e., by normal electroplating). The various cladding processes include pouring molten cladding metal onto the basic metal followed by rolling; simple hot-rolling of the cladding metal to ensure efficient welding to the basic metal; any other method of deposition of superimposing of the cladding metal followed by any mechanical or thermal process to ensure welding (i.e., electrocladding), in which the cladding metal (nickel, Chromium, etc.) is applied to the basic metal by electroplating, molecular interpenetration of the surfaces in contact then being obtained by heat treatment at the appropriate temperature with subsequent cold rolling. See Harmonized Commodity Description and Coding System Explanatory Notes, Chapter 72, General Note (IV)(C)(2)(e). Stainless clad steel plate is manufactured to American Society for Testing and Materials ("ASTM") specifications A263 (400 series stainless types) and A264 (300 series stainless types). Nickel and nickel-base alloy clad steel plate is manufactured to ASTM specification A265. These specifications are illustrative but not necessarily all-inclusive.
