Request for Public Comments on Information Collection Submitted to OMB for Review Under the Paperwork Reduction Act

The proposal for the information collection described below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collection of information may be obtained by contacting the Bureau's clearance officer at the phone number listed below. OMB has up to 60 days to approve or disapprove the information collection, but may respond after 30 days; therefore comments on the proposal should be made directly to the Desk Officer for the Interior Department, Office of Regulatory Affairs, Office of Management and Budget, Washington, DC 20503; and to the Bureau Clearance Officer, U.S. Geological Survey, 807 National Center, 12201 Sunrise Valley Drive, Reston, Virginia, 20192, telephone (703) 648-7313.

As required by OMB regulations at 5 CFR 1320.8(d)(1), the U.S. Geological Survey solicits specific public comments as to:

1. Whether the collection of information is necessary for the proper performance of the functions on the bureaus, including whether the information will have practical utility;
2. The accuracy of the bureau's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
3. The quality, utility, and clarity of the information to be collected; and
4. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Title: North American Breeding Bird Survey.

Current OMB Approval Number: None.

Summary: The North American Breeding Bird Survey (BBS) is a long-term, large-scale avian monitoring program that was initiated in 1966 to

track the status and trends of continental bird populations. Each spring, interested volunteers conduct 3-minute point counts of birds along roadsides across the United States. Data can be submitted electronically via the Internet or on hard copy. These data provide an index of population abundance that can be used to estimate population trends and relative abundances at various geographic scales. Declining population trends act as an early warning system to galvanize research to determine the causes of these declines and reverse them before populations reach critically low levels. The BBS currently provides population trend estimates for 420 bird species and raw data for more than 650 species via the web.

Estimated Annual Number of Respondents: 2500.

Estimated Annual Burden Hours: 12,500 hours.

Affected Public: Primarily U.S. residents.

For Further Information Contact: To obtain copies of the survey, contact the Bureau clearance officer, U.S. Geological Survey, 807 National Center, 12201 Sunrise Valley Drive, Reston, Virginia, 20192, telephone (703) 648-7313.

Dated: October 15, 2001.

Dennis B. Fenn,

Associate Director for Biology.

Title: North American Amphibian Monitoring Program.

Current OMB Approval Number: None.

Summary: The North American Amphibian Monitoring Program (NAAMP) is long-term, large-scale anuran monitoring program to track the status and trends of eastern and central North American frogs and toads. Volunteers conduct calling surveys of frogs and toads three to four times per year, depending on the regional species assemblage. Volunteers listen for 5 minutes at 10 stops along the route. Data are submitted electronically via the Internet or on hard copy. These data will be used to estimate population trends at various geographic scales. Declining population trends can act as an early warning system to galvanize research to determine the causes of these declines and reverse them before populations reach critically low levels.

Estimated Annual Number of Respondents: 100.

Estimated Annual Burden Hours: 7,000 hours.

Affected Public: Primarily U.S. residents.

For Further Information Contact: To obtain copies of the survey, contact the Bureau clearance officer, U.S. Geological Survey, 807 National Center, 12201 Sunrise Valley Drive, Reston, Virginia, 20192, telephone (703) 648-7313.

Bureau of Indian Affairs

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of renewal.

SUMMARY: This notice announces that the Information Collection Request for the Indian Service Population and Labor Force Estimates, OMB No. 1076-0147, requires renewal. The Bureau of Indian Affairs (BIA) in accordance with the Paperwork Reduction Act is soliciting comments on the proposed information collection.

DATES: Submit comments on or before December 18, 2001.

ADDRESSES: Your comments and suggestions on the requirements should be made directly to Mr. Harry Rainbolt, Budget Officer, Office of Tribal Services, Bureau of Indian Affairs, Department of the Interior, 1849 C Street NW., MS-4660-MIB, Washington, DC 20240. Telephone (202) 208-3463.

FOR FURTHER INFORMATION CONTACT:

Copies of the documents contained in the information collection request may be obtained by contacting Mr. Harry Rainbolt at (202) 208-3463.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information is mandated by Congress through Public Law 102-477, Indian Employment, Training and Related Services Demonstration Act of 1992, section 17. The Act requires the Secretary to develop, maintain and publish, not less than biennially, a report on the population by gender, income level, age, service area, and availability for work. The information is used by the U.S. Congress, other Federal agencies, State and local governments and private sectors for the purpose of developing programs, planning, and to award financial assistance to American Indians. An agency may not conduct or sponsor, nor is any person required to respond to a collection of information unless it displays a currently valid OMB control number.

II. Request for Comments

We specifically request your comments on the following:

1. Whether the collection of information is necessary for the proper performance of the functions of the BIA, including whether the information will have practical utility;

2. The accuracy of the BIA's estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

3. The quality, utility and clarity of the information to be collected; and,

4. How to minimize the burden of the information collection on those who are to respond, including the use of appropriate automated electronic, mechanical or other forms of information technology.

III. Data

Title of the Collection of Information: Department of the Interior, Bureau of Indian Affairs, Indian Service Population and Labor Force Estimates.

OMB Number: 1076-0147.

Affected Entities: American Indians and Alaska Natives, members and non-members, who are living on or near the tribe's defined service area and who are eligible for Bureau of Indian Affairs services.

Frequency of Response: Biennially.

Estimated Number of Biennial Responses: 561.

Estimated Time per Response: 1/2 hour.

Estimated Total Annual Burden Hours: 140 hours annually.

Dated: October 4, 2001.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.
