

payment with the application. No fee is required for a letter of interest.

Applicants may not include application fees or any other expenses associated with the application process (such as charges associated with obtaining the required preliminary rating opinion letter) among eligible project costs for the purpose of calculating the maximum 33 percent credit amount.

In addition, consistent with 23 U.S.C. 183(b)(7), 183(e)(2), 184(b)(9) and with 49 CFR 80.17, the TIFIA JPO will charge each borrower a credit processing fee equal to a portion of the costs incurred by the TIFIA JPO in negotiating the credit agreement. Each project term sheet will require the borrower to pay at closing, or, in the event no credit agreement is consummated, upon invoicing by the TIFIA JPO, an amount equal to the actual costs incurred by the TIFIA JPO in procuring the assistance of financial advisors and outside legal counsel through execution of the credit agreement(s) and satisfaction of all funding requirements of those agreements. The TIFIA JPO anticipates this fee will typically amount to \$100,000 to \$300,000, depending on the complexity of the financial structure and the length of negotiations. The borrower may not include the credit processing fee among eligible project costs for the purpose of calculating the maximum 33 percent.

Finally, the TIFIA JPO will continue to charge borrowers a fee of not less than \$10,000 per year, which may be adjusted annually, for loan servicing activities associated with each TIFIA credit instrument. The borrower may not include the loan servicing fee among eligible project costs for the purpose of calculating the maximum 33 percent credit amount.

The FHWA will publish in the **Federal Register**, at least once each fiscal year through FY 2003, a NOFA inviting applications for TIFIA credit assistance for major surface transportation projects through the TIFIA program. Such notices will advise potential applicants of the estimated amount of funding available for TIFIA credit instruments as well as any changes to the application process, including the nature and amount of any required fees.

### Bureau of Transportation Statistics

#### Grant Program for Research and Development in the Field of Transportation Statistics

**AGENCY:** Bureau of Transportation Statistics, DOT.

**ACTION:** Announcement of grant program.

**SUMMARY:** The Bureau of Transportation Statistics supports its goal of advancing the field of transportation statistics through the Transportation Statistics Research Grants program. This notice solicits applications for projects that (1) support the development of the field of transportation statistics; and/or (2) involve research or development in transportation statistics. It outlines the purpose, goals, and general procedures for application and award. For this cycle, BTS will make available up to approximately \$500,000 in grant funds to eligible organizations.

**DATES:** For BTS to consider your application, we must receive it by January 25, 2002, at 5 P.M. Eastern Standard Time. Applications received after January 25, 2002, will be held for the next cycle, which is anticipated to be every six to twelve months, unless you request in writing that your application be returned.

**ADDRESSES:** You must send six copies of the application package to the BTS Grants Program, Room 3430, Bureau of Transportation Statistics, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590.

**FOR FURTHER INFORMATION CONTACT:** Promod Chandhok, Office of Statistical Programs and Services, Bureau of Transportation Statistics, Room 3430, 400 Seventh Street, SW., Washington, DC 20590; phone (202) 366-2158; fax: (202) 366-3640; e-mail: promod.chandhok@bts.gov. 1

**SUPPLEMENTARY INFORMATION:**

#### I. Background—Advancing the Discipline of Transportation Statistics

The purpose of this grant program is to provide financial assistance to eligible organizations to help advance the discipline of transportation statistics. These grants are authorized by section 5109 of the Transportation Equity Act for the 21st Century (TEA-21) (Public Law 105-178 (1998), codified at 49 U.S.C. 111(g)). BTS anticipates awarding up to \$500,000 per year in grants for projects that (1) support development of the field of transportation statistics; and/or (2)

advance research or development in transportation statistics.

BTS is a separate operating administration within the U.S. Department of Transportation (DOT). Its mission is to lead in developing transportation data and information of high quality, and to advance their effective use in public and private transportation decision-making. In accomplishing this mission, BTS works to improve six key attributes of transportation data and analysis—quality, comparability, completeness, timeliness, relevance, and utility.

Our ultimate goal is to make transportation better—to enhance safety, mobility, economic growth, the human and natural environment, and national security (the five strategic goals of the Department of Transportation). BTS's role in this goal is to put together data and information that others need to make decisions concerning transportation. We collect data and compile, analyze, and publish statistics. Many others, both within and outside DOT, are involved in building this knowledge base and BTS could not do it alone.

While there are many excellent transportation data programs and many excellent statistics programs, few are devoted to the intersection of these two disciplines. Bringing a better understanding of statistics to transportation data will improve data quality, increase utility (e.g., by improving measures of travel), and reduce costs (e.g., by using techniques to make data collection, analysis, and dissemination more efficient). BTS wants to foster the transportation statistics discipline and increase its quality and usefulness to the transportation community. This grants program is one way BTS is working toward this goal.

#### II. Eligibility Requirements

##### *What Organizations May Apply?*

BTS invites applications from public and private non-profit institutions of higher education. We strongly encourage Minority Serving Institutions, which have been traditionally under represented in transportation statistics, to submit applications. If organizations partner on a project, the participants should submit a single application. You may submit more than one application as long as the applications are for separate and distinct projects.

##### *What Projects Are Eligible for Funding?*

Proposals should serve the broad transportation interests of the country, and we are particularly interested in

<sup>2</sup> Carolina Coastal Railway, Inc., Commonwealth Railway, Inc., and Talleyrand Terminal Railroad, Inc.
